the heroic age of Greece A minstrel might be attached to a Court or a noble or he might go wandering with song and harp among the people In either case this class of men developed more regular and ample measures They evolved the hexameter the *laisse* of the Chansons de Geste the strange technicalities of Scandinavian poetry the metres of Vedic hymns the choral odes of Greece The narrative popular chant became in their hands the Epic or the mediaeval rhymed romance The metre of improvised verse changed into the artistic lyric These lyric forms were fixed in many cases by the art of writing But poetry did not remain solely in professional and literary hands The mediaeval minstrels and jongleurs who may best be studied in Leconte de Lisle's Introduction to his *Epopées Françaises* sang in Court and Camp The poorer less regular brethren of the art harped and played conjuring tricks in farm and grange or at street corners The foreign newer metres took the place of the old alliterative English verse But unprofessional men and women did not cease to make and sing
