The Sacred and its Scholars Idinopulos, Yonan, 1996-10-01 This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the history of religions and its allied disciplines The central question to which the contributors respond are these What is the Sacred Is it a being or a concept of a being is it a mental state or an objective reality or

something else entirely Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry If the Sacred is a valid category in the study and teaching of religion then what can be said about the antithesis of the sacred namely the profane or the secular This volume probes these questions with great care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion

Hardy, 2011-02-23 How sacred sites amplify the energies of consciousness the earth and the universe Examines the web of geometrical patterns linking sacred sites worldwide with special focus on the sacred network of ley lines in Paris Unveils the coming state of shared consciousness for humanity fueled by the sacred network Reveals how consciousness is a tangible form of energy First marked by the standing stones of our megalithic ancestors the world s sacred sites are not only places of spiritual energy but also hubs of cosmic energy and earthly energy Generation upon generation has recognized the power of these sites with the result that each dominant culture builds their religious structures on the same spots the Cathedral of Notre Dame in Paris for example was constructed over a Temple to Diana that in turn had been built over a stone pillar worshipped by the Gauls In The Sacred Network Chris Hardy shows how the world s sacred sites coincide with the intersections of energetic waves from the earth s geomagnetic field and how via their megaliths temples and steeples these sites act as antennae for the energies of the cosmos Delving deeply in to Paris s sacred network she also explores the intricate geometrical patterns created by the alignments of churches and monuments such as pentagrams and Stars of David Revealing that consciousness is a tangible energy she explains how the sacred network is fueling an 8 000 year evolutionary cycle initiated by our megalithic ancestors that will soon culminate in a new state of shared consciousness for humanity

Boustana,Oren Kosansky,Marina Rustow,2011-01-24 Over the past several decades the field of Jewish studies has expanded to encompass an unprecedented

range of research topics historical periods geographic regions and analytical approaches Yet there have been few systematic efforts to trace these developments to consider their implications and to generate new concepts appropriate to a more inclusive view of Jewish culture and society Jewish Studies at the Crossroads of Anthropology and History brings together scholars in anthropology history religious studies comparative literature and other fields to chart new directions in Jewish studies across the disciplines This groundbreaking volume explores forms of Jewish experience that span the period from antiquity to the present and encompass a wide range of textual ritual spatial and visual materials The essays give full consideration to non written expressions of ritual performance artistic production spoken narrative and social experience through which Jewish life emerges More than simply contributing to an appreciation of Jewish diversity the contributors devote their attention to three key concepts authority diaspora and tradition that have long been central to the study of Jews and Judaism Moving beyond inherited approaches and conventional academic boundaries the volume reconsiders these core concepts reorienting our understanding of the dynamic relationships between text and practice and continuity and change in Jewish contexts More broadly this volume furthers conversation across the disciplines by using Judaic studies to provoke inquiry into theoretical problems in a range of other areas
