The Great Mathematicians of Bharat emerges as a seminal work aligning perfectly with the vision of the National Education Policy NEP 2020 which emphasizes the integration and appreciation of Indian Knowledge Systems IKS in contemporary education. This book meticulously documents the rich legacy of India's mathematical geniuses serving as a crucial resource in rekindling interest and respect for Bharat's profound mathematical traditions. It underscores the symbiotic relationship between cultural ethos and scientific inquiry, highlighting how Indian mathematicians not only contributed to the field of mathematics but also how their work was deeply interwoven with Hindu spiritual and cultural practices. By chronicling the journey from ancient sages to modern masters, the book provides a comprehensive view of the evolution of mathematical thought in Bharat, thus fulfilling NEP 2020's objective of integrating indigenous knowledge with modern academic frameworks. In doing so, it not only educates but also inspires, setting a precedent for future academic endeavours to explore and celebrate India's rich intellectual heritage.

 Poonia, 2021-08-07 Casteless India is an idea dreamt by the framers of our constitution As far fetched a dream it may seem
 the necessity of making caste an irrelevant denominator in the social economic and political life of India cannot be overstated
 Despite a number of reforms initiated by successive governments nationally and across states the overall efforts seem half
 hearted rudderless and often working at cross purposes with one another This book is an effort to find the basis of the caste
 system tracing it from its origin and dissecting its various facets so as to chart out a practical approach to uproot this social
 vice from our society The objective of the book is to give a feasible solution understanding the ground realities of the issue
 based on a broad consensus that may be favourably acceptable to all sections of the society in order to build a truly
 egalitarian society **Land and Literature in a Cosmopolitan Age** Vincent P. Pecora, 2020 This volume focuses on the
 idea of vital geographies in literature from 1871 to 1945 Studying works by writers such as George Eliot Hardy Conrad
 Lawrence Forster Woolf and T S Eliot the volume explores the relationship between literature and the land *Philosophie
 aus interkultureller Sicht / Philosophy from an Intercultural Perspective*, 2023-08-14 Was Interkulturelle Philosophie ist und
 worin ihr besonderer Beitrag zur Philosophie im ganzen bestehen kann das kann sich allein in konkreten Ausarbeitungen
 erweisen Der vorliegende Band repräsentiert eine breitgefächerte Auswahl sowohl der unterschiedlichen Ansatzpunkte von
 denen interkulturelles Philosophieren ausgeht als auch der diversen Forschungsgebiete innerhalb der Philosophie die durch
 interkulturelle Fragestellungen angesprochen sind Die Vielfalt der historischen und systematischen Zugangsweisen
 reflektiert die Bezeugung da Interkulturelle Philosophie kein in sich geschlossenes Lehrgebäude ist und ein solches auch
 nicht werden kann sondern interkulturelles Philosophieren eine bestimmte Einstellung und eine Haltung darbietet die auf
 der grundlegenden Annahme beruht da die letzte philosophische Einsicht die Wahrheit im Singular von niemandem allein
 erlangt worden ist und auch nicht erlangt werden kann The History of Experience Wolfgang Leidhold, 2022-10-14 In a
 wide arc from the Paleolithic to the present day this book explores the changing structure of human experience and its
 impact on the dynamics of cultures civilizations and political ideas The main thesis is a paradigm shift the structure of human
 experience is not a universal constant but changes over time Looking at the entire range of human history there are a total of
 nine transformations beginning with conscious perception and imagination in the Paleolithic and ending for the time being in
 modern times with the discovery of the unconscious In between this book explores six more transformations that took place
 in different regions and at different times which include a sense of order self reflection the eye of reason spiritual experience

as well as the experience of creativity and of consciousness As such The History of Experience presents both a cross cultural and comparative theory of experience and cultural dynamics and an exploration of rich materials from East and West This book is of great use to upper level undergraduates postgraduates and scholars interested in the relationship between history human experience culture and political order

The Garden of Reality Roland Faber,2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bah religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality
