Skeletons On The Zahara A True Story Of Survival:

Skeletons on the Zahara Dean King, 2025-05-01 A National Bestseller the true story of shipwrecked American sailors in Africa who were captured by slavers and forced to trek through the Sahara This true life saga reads like a cross between Master and Commander and Lawrence of Arabia People The western Sahara is a baking hot and desolate place home only to nomads and their camels and to locusts snails and thorny scrub and its barren and ever changing coastline has baffled sailors for centuries In August 1815 the US brig Commerce was dashed against Cape Bojador and lost although through bravery and quick thinking the ship s captain James Riley managed to lead all of his crew to safety What followed was an extraordinary and desperate battle for survival in the face of human hostility starvation dehydration death and despair Captured robbed and enslaved the sailors were dragged and driven through the desert by their new owners who neither spoke their language nor cared for their plight Reduced to drinking urine flayed by the sun crippled by walking miles across burning stones and sand and losing over half of their body weights the sailors struggled to hold onto both their humanity and their sanity To reach safety they would have to overcome not only the desert but also the greed and anger of those who would keep them in captivity From the cold waters of the Atlantic to the searing Saharan sands from the heart of the desert to the heart of man Skeletons on the Zahara is a spectacular odyssey through the extremes and a gripping account of courage brotherhood and survival A little bit H Rider Haggard a little bit Jon Krakauer a little bit Nathaniel Philbrick and a whole lot of gruesome fun

Historical Dictionary of Morocco Aomar Boum,Thomas K. Park,2016-06-02 A historical reference work on Morocco must take as its subject al maghrib al aqsa the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on al maghrib al aqsa than is the case for most modern nation states This third edition of *Historical Dictionary of Morocco* contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco *Beyond the Known* Andrew Rader,2020-11-17 From brilliant young polymath Andrew Rader an MIT credentialed scientist popular podcast host and SpaceX mission manager an engaging Tim Marshall New York Times bestselling author chronicle showcasing our human desire to continually explore new and uncharted territory from civilization s earliest days to interstellar travel For the first time in history the human species has the technology to destroy itself But having developed that power humans are also able to leave Earth and voyage into the vastness of space After millions of years of evolution we ve arrived at the point where we can settle other worlds and begin the process of becoming multi planetary How did we get here What does the future hold for us Divided into four accessible sections *Beyond the Known* examines major periods of discovery and rediscovery from Classical Times when Phoenicians Persians and Greeks ventured forth to The Age of European Exploration which saw colonies sprout on nearly every continent to The Era of Scientific Inquiry when researchers developed new tools for mapping and traveling farther to Our Spacefaring Future which unveils plans currently underway for settling other planets and eventually traveling to the stars A Mission Manager at SpaceX with a lively voice Andrew Rader is at the forefront of space exploration As a gifted historian Rader who has won global acclaim for his stunning breadth of knowledge is singularly positioned to reveal the story of human exploration that is also the story of scientific achievement
