**Skepticism and Cognitivism** Oliver A. Johnson, 1978-01-01      **Skepticism and Cognitivism** Oliver A.

Johnson, 2024-03-29 Skepticism and Cognitivism addresses the fundamental question of epistemology Is knowledge possible It approaches this query with an evaluation of the skeptical tradition in Western philosophy analyzing thinkers who have claimed that we can know nothing After an introductory chapter lays out the central issues chapter 2 focuses on the classical skeptics of the Academic and Pyrrhonic schools and then on the skepticism of David Hume Chapters 3 through 5 are devoted to contemporary defenders of skepticism Keith Lehrer Arne Næss and Peter Unger In chapter 6 author Oliver A Johnson dons the mantle of skeptic himself and develops and adds theories to the skeptical arsenal He closes with an examination of the relationship between skepticism and cognitivism reaching and defending conclusions on the nature and extent of possible human knowledge This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978      **Ethical Naturalism** Susana Nuccetelli, Gary

Seay, 2011-12-08 Ethical naturalism is narrowly construed as the doctrine that there are moral properties and facts at least some of which are natural properties and facts Perhaps owing to its having faced early on intuitively forceful objections by eliminativists and non naturalists ethical naturalism has only recently become a central player in the debates about the status of moral properties and facts which have occupied philosophers over the last century It has now become a driving force in those debates one with sufficient resources to challenge not only eliminativism especially in its various non cognitivist forms but also the most sophisticated versions of non naturalism This volume brings together twelve new essays which make it clear that in light of recent developments in analytic philosophy and the social sciences there are novel grounds for reassessing the doctrines at stake in these debates      **The ^AOxford Handbook of Epistemology** Paul K.

Moser, 2005-10-27 The Oxford Handbook of Epistemology contains 19 previously unpublished chapters by today's leading figures in the field These chapters function not only as a survey of key areas but as original scholarship on a range of vital topics Written accessibly for advanced undergraduates graduate students and professional philosophers the Handbook explains the main ideas and problems of contemporary epistemology while avoiding overly technical detail      The Review of Metaphysics, 1989      **Bibliographie Internationale de Sociologie 1980**, 1982 Each Bibliography lists and annotates the most important works published during the year They are arranged by topic and indexed by author subject and geographic location

**Philosophy and Contemporary Issues** John Roy Burr, Milton Goldinger, 1996 Philosophy and Contemporary Issues contains contemporary readings of philosophical significance designed to introduce philosophy to college and university students The authors goal is to demonstrate how philosophy illuminates and helps solve some of the important

problems facing contemporary man This edition contains additional readings *Intervals of Inspiration* Donald H. Reiman,1988 The Cambridge Handbook of Cognitive Linguistics Barbara Dancygier,2017-06-01 The best survey of cognitive linguistics available this Handbook provides a thorough explanation of its rich methodology key results and interdisciplinary context With in depth coverage of the research questions basic concepts and various theoretical approaches the Handbook addresses newly emerging subfields and shows their contribution to the discipline The Handbook introduces fields of study that have become central to cognitive linguistics such as conceptual mappings and construction grammar It explains all the main areas of linguistic analysis traditionally expected in a full linguistics framework and includes fields of study such as language acquisition sociolinguistics diachronic studies and corpus linguistics Setting linguistic facts within the context of many other disciplines the Handbook will be welcomed by researchers and students in a broad range of disciplines including linguistics cognitive science neuroscience gesture studies computational linguistics and multimodal studies **Subject Guide to Books in Print** ,1993 **Cognitive Media Theory** Ted Nannicelli,Paul Taberham,2014-03-26 Across the academy scholars are debating the question of what bearing scientific inquiry has upon the humanities The latest addition to the AFI Film Readers series Cognitive Media Theory takes up this question in the context of film and media studies This collection of essays by internationally recognized researchers in film and media studies psychology and philosophy offers film and media scholars and advanced students an introduction to contemporary cognitive media theory an approach to the study of diverse media forms and content that draws upon both the methods and explanations of the sciences and the humanities Exploring topics that range from color perception to the moral appraisal of characters to our interactive engagement with videogames Cognitive Media Theory showcases the richness and diversity of cognitivist research This volume will be of interest not only to students and scholars of film and media but to anyone interested in the possibility of a productive relationship between the sciences and humanities Choice ,1979 Research Guide to Philosophy Terrence N. Tice,Thomas P. Slavens,1983 This reference resource provides an introduction to philosophy and its developing historical critical literature From preface *The Epistemology of Democracy* Hana Samaržija,Quassim Cassam,2023-04-03 This is the first edited scholarly collection devoted solely to the epistemology of democracy Its fifteen chapters published here for the first time and written by an international team of leading researchers will interest scholars and advanced students working in democratic theory the harrowing crisis of democracy political philosophy social epistemology and political epistemology The volume is structured into three parts each offering five chapters The first part Democratic Pessimism covers the crisis of democracy the rise of authoritarianism public epistemic vices misinformation and disinformation civic ignorance and the lacking quantitative case for democratic decision making The second part Democratic Optimism discusses the role of hope and positive emotions in rebuilding democracy proposes solutions to myside bias and criticizes dominant epistocratic approaches to forming political administrations The third and final part Democratic Realism

assesses whether we genuinely require emotional empathy to understand the perspectives of our political adversaries discusses the democratic tension between mutual respect for others and a quest for social justice and evaluates manifold top down and bottom up approaches to policy making

**Animals and Science** Niall Shanks, 2002-06-21 *Animals and Science* examines the debates from the Renaissance to the present surrounding issues of animal rights consciousness and self awareness *Animals and Science* examines what science has and has not taught us about the nature of nonhuman animals and explores the moral religious social and scientific implications of those teachings It shows how the scientific study of animals especially their cognitive abilities has transformed our understanding of them *Animals and Science* traces our evolving understanding of animal pain and considers its moral relevance to humans It discusses Darwin's belief shattering notion that species differences are not absolute then traces its impact to the present day Ultimately *Animals and Science* is about the nature of science the kinds of questions science can and cannot answer and the role of theory in shaping the interpretation of evidence

*Cognitive Poetics* Geert Brône, Jeroen Vandaele, 2009-05-05 For more than two decades now cognitive science has been making overtures to literature and literary studies Only recently however cognitive linguistics and poetics seem to be moving towards a more serious and reciprocal type of interdisciplinarity In coupling cognitive linguistics and poetics cognitive poetics aim to offer cognitive readings of literary texts and formulate specific hypotheses concerning the relationship between aesthetic meaning effects and patterns in the cognitive construal and processing of literary texts One of the basic assumptions of the endeavour is that some of the key topics in poetics such as the construction of text worlds characterization narrative perspective distancing discourse etc may be fruitfully approached by applying cognitive linguistic concepts and insights such as embodied cognition metaphor mental spaces iconicity construction grammar figure ground alignment etc in an attempt to support enrich or adjust traditional poetic analysis Conversely the tradition of poetics may support frame or call into question insights from cognitive linguistics In order to capture the goals gains and gaps of this rapidly growing interdisciplinary field of research this volume brings together some of the key players and critics of cognitive poetics The eleven chapters are grouped into four major sections each dealing with central concerns of the field i the cognitive mechanisms discursive means and mental products related to narrativity Semino Herman Culpeper ii the different incarnations of the concept of figure in cognitive poetics Freeman Steen Tsur iii the procedures that are meant to express or create discursive attitudes like humour irony or distance in general Antonopoulou and Nikiforidou Dancygier and Vandelanotte Giora et al and iv a critical assessment of the current state of affairs in cognitive poetics and more specifically the incorporation of insights from cognitive linguistics as only one of the contributing fields in the interdisciplinary conglomerate of cognitive science Louwerse and Van Peer Sternberg The ensuing dialogue between cognitive and literary partners as well as between advocates and opponents is promoted through the use of short response articles included after ten chapters of the volume Geert Brône Katholieke Universiteit Leuven Belgium Jeroen
