John D. Davis

Small Antique Silverware:

Hughes, George Bernard George Bernard Hughes, 1957 **Silver in England** Philippa Glanville, 2013-11-05 First Published in 2005 Silver is unique among the decorative arts in that its raw material is both inherently valuable and infinitely reusable Its ownership has been a social bench mark and its form has exercised the skills of sculptors designers chasers and engravers but ultimately it could be and normally was melted down and refashioned quite without sentiment Because of this constant recycling the survival of any individual object is quite random and unrelated to its uniqueness or otherwise in its period Hitherto plate historians have focused on individual objects almost to the exclusion of the context social or economic from which they came but now that context is seen as crucial in understanding historic plate So in the first section of this book each chapter considers contemporary attitudes and usage Auction catalogues of books Puttick and Simpson (messrs.), 1846 The Robert and Meredith Green Collection of Silver Nutmeg Graters John D.
