Unredeemed Land Erin Stewart Mauldin, 2021 Unredeemed Land examines the ways the Civil War and the emancipation of the slaves reconfigured the South's natural landscape revealing the environmental constraints that shaped the rural South's transition to capitalism during the late nineteenth century Harper Adams Utility Poultry Journal, 1927

Insurance Against Poverty World Institute for Development Economics Research, 2005 Poor people in developing countries are often affected by droughts floods illness crop failure job loss and economic downturns Much of their energy goes into coping with these shocks and into day to day survival While insurance and credit markets combined with widespread social security provide an important cushion against poverty in rich countries the need for immediate survival may lock the poor into persistent poverty in developing countries The poor in developing countries do have informal mechanisms to cope with risk and misfortune These are based on income diversification risk avoidance self insurance by saving together with family and community based mutual assistance Nevertheless the scope of these mechanisms remains limited Repeated individual specific shocks such as illness or pests or covariate risks associated with drought flood or recession undermine the ability of individuals and their families to cope with risk We now know much more about vulnerability to risk and how poor people cope Even more importantly we have learned much about the large long term consequences of these risks which condemns many to persistent poverty and excludes them from economic growth But there is much that can be done The micro level studies that underpin this book offer new insights on how effective public action could be more effective in protecting the vulnerable against persistent poverty Policy should focus on providing a comprehensive menu of ex ante and post crisis protection mechanisms including new forms of insurance savings safety nets and the means to strengthen the poor's asset base Local communities have a big role to play public funds should not be used to replace indigenous community based support networks rather they should be used to build on the strengths of these networks to ensure broader and more effective protection With numerous thematic chapters and case studies of both best practice and of failure from a mix of low income and middle income countries across the developing world this book evaluates alternatives in widening insurance and protection provision and makes an important contribution to the topical field of insurance and risk

The Theory and Practice of Microcredit Wahiduddin Mahmud, S. R. Osmani, 2016-10-04 The remarkable speed at which microcredit has expanded around the world in the last three decades has piqued the curiosity of practitioners and theorists alike By developing innovative ways of making credit available to the poor the idea of microcredit has challenged many traditional assumptions about both poverty reduction strategies and financial markets While this has

encouraged new theorising about how microcredit works the practice of microcredit has itself evolved often in unpredictable ways outpacing the development of theory The Theory and Practice of Microcredit aims to remedy this imbalance arguing that a proper understanding of the evolution of practice is essential both for developing theories that are relevant for the real world and for adopting policies that can better realize the full potential of microcredit By drawing upon their first hand knowledge of the nature of this evolution in Bangladesh the birthplace of microcredit the authors have pushed the frontiers of current knowledge through a rich blend of theoretical and empirical analysis The book breaks new grounds on a wide range of topics including the habit forming nature of credit repayment the institutional strength and community based role of microfinance institutions the relationships between microcredit and informal credit markets the pattern of long term participation in microcredit programmes and the variety of loan use the scaling up of microenterprises beyond subsistence the missing middle in the credit market and the prospects of linking micro entrepreneurship with economic development The book will be of interest to researchers development practitioners and university students of Development Economics Rural Development or Rural Finance as well as to public intellectuals

Rush Todd G. Buchholz, 2011-05-05 We think we will be happy when we have some downtime when we can finally go on vacation disconnect shut down But in this provocative book Todd Buchholz will convince you that what you really want is to chase your tail even if you never catch it Weaving in everything from neuroeconomics to evolutionary biology to renaissance art to General Motors Buchholz will convince you that the race to compete has not only made us taller and smarter it s what we love and need Among the book s many counterintuitive takeaways are Put off retirement it can make you stupid We all need to be control freaks In house competition is actually great for morale Never let the ninth place team take home a trophy Witty breezy and very funny Todd Buchholz shows that it s the race itself that literally delivers the rush even if we never reach the finish line
