Hirokawa, Marshall Scott Poole, 1996-07-09 The long awaited second edition of Communication and Group Decision Making advances a unique perspective on group decisionmaking complementing approaches taken in management psychology and sociology Group communication processes are extremely important yet they have proven to be elusive and difficult to understand and the type of theory necessary to make sense of the processes differs from those commonly found in the social sciences This exceptional book gathers together and discusses a number of strong theoretical frameworks that have developed over the past 15 years Providing important empirical evidence the authors take stock of recent developments in group communication research The essays are distinctive both in their explicit focus on communication processes and in their location in a unique intellectual

tradition **New Directions in Group Communication** Lawrence R. Frey, 2002 New Directions in Group Communication takes as its mission the setting of the agenda for the study of group communication in the future. It does so by presenting work that scholars have not previously explored in the current small group communication literature. Part I focuses on new theoretical and conceptual directions both presenting new views and extending current positions. Part II examines new research methodologies while Part III looks at antecedent factors affecting group communication. Parts IV and V of the text provide insight into both group communication process and practices. Part VI covers different group communication contexts including communication patterns in top management teams. *The Handbook of Group Communication Theory and Research* Lawrence R. Frey, Dennis Gouran, Marshall Scott Poole, 1999-07-08 The Handbook of Group Communication Theory and Research establishes a central resource for the field documenting and synthesizing the work done in group communication's 50 year history. With contributions from the most experienced and respected scholars in the field, the editors Lawrence R. Frey, Dennis S. Gouran, and Marshall Scott Poole present an overview of group communication study and examine a variety of theoretical positions and methodological practices. The volume is divided into six broad areas of communication scholarship: Foundations of group communication theory and research; Individuals and group communication; Task and relational group communication; Group communication processes; Group communication facilitation; Group communication contexts and applications. The sections serve as a crossroads where various paths pursued in each area meet, summarize, and suggest new maps and roads that need to be followed in the future. Offering a comprehensive history of group communication theory and research and establishing new conceptual perspectives and research agendas for future group communication scholars, this important resource will be an unrivalled tool for scholars, researchers, educators, practitioners, and students alike.

An Integrated Approach to Communication Theory and Research Don W. Stacks, Michael B. Salwen, 2014-04-08 This volume provides an overview of communication study offering theoretical coverage of the broad scope of communication study as well as integrating theory with research. To explicate the integration process, the chapter contributors, experts in their respective areas, offer samples in the form of hypothetical studies, published studies, or unpublished research showing how theory and research are integrated in their particular fields. The book will appeal to graduate students and faculty members who want a thorough overview of not only the field but also sample research stemming from its various component parts. *Gestalt Therapy* Ansel L. Woldt, Sarah M. Toman, 2005-01-20 Praise for Gestalt Therapy: History, Theory, and Practice This is an incredibly important addition to the world of psychotherapy and Gestalt in particular. This book will be very helpful for use with various courses of study, not just Gestalt institutes and special training programs but also general graduate school classes in masters programs for mental health, social work, counseling, allied health, professionals, psychiatry, and psychology. I highly recommend this book. I think it will make an excellent contribution. Norman Shub, Gestalt Associates, Columbus, Ohio.
