Smallholder dairy farmer training manual Goopy, J.P., Gakige, J.K., 2016-08-31 Working with Smallholders
International Finance Corporation, 2018-12-05 The world's population is expected to reach 9.8 billion in 2050. Meanwhile, concurrent rises in incomes and urbanization are driving increased consumption of meat, dairy, and biofuels. Meeting the demand for food, feed, and biofuel will require a global production increase of almost 50 percent relative to 2012. Production in South Asia and Sub-Saharan Africa, where 95 percent of farms are smaller than five hectares, must double at a minimum. A key element of policies to increase food production will be promoting improved food quality as the health costs of too much too little and the wrong types of food become increasingly evident. Additional initiatives must address how to reduce food losses globally; one third of food production is lost or wasted at different stages in the food chain each year. Climate change is bringing further stressors. These challenges also present opportunities. Around the world, 450 million smallholder farmers are plagued by low productivity and poor access to inputs, technology, knowledge, financing, and markets. Agribusinesses are increasingly working directly with smallholder farmers in low and middle income countries to help secure a sustainable supply of key agricultural commodities while boosting rural incomes and economic growth. Sourcing directly from smallholders can expand a firm's supply base, reduce margins paid to collectors and middlemen, facilitate improvements in quality and yield, and deliver premium prices for a certified fair trade or sustainably produced product. Smallholders also represent a growing market for farm inputs, information, and financial services. Agribusiness firms can help smallholders to increase productivity and improve crop quality, access, know how to mitigate social and environmental impacts, develop farm management skills, and combine their production with other farmers to achieve sufficient scale to be effective market players and meet the growing demand for safe, sustainable food by improving practices and introducing traceability and certification systems. *Working with Smallholders: A Handbook for Firms Building Sustainable Supply Chains* shows how agribusinesses can develop more sustainable, resilient, and productive supply chains and illustrates the substantial impact of doing so on development. The book compiles innovative solutions and cutting edge ideas to meet the challenges and it incorporates a diverse collection of hands-on case studies from across the world that cover a variety of agribusiness sectors. This second edition builds on the lessons learned and provides updates in leading trends and technologies from those provided in the first edition published in 2014. Managing Smallholder Teak Plantations Agus Astho Pramono, 2011-01-01 *The Smallholder's Manual* Katie Thear, 2002 Whether you are an established smallholder or just starting to take the first tentative steps towards farming at your home, *The Smallholder's Manual* contains a wealth of valuable information on all the key aspects of small scale agriculture. Topics covered include buying a small farm, preparing outbuilding and equipping it with machinery and tools, the kitchen garden, protected cultivation, orchards and pasture, livestock from bees, rabbits and chickens to goats, cattle and exotic species, and commercial considerations, regulations, and organic farming. Freedom's Price S. A. Eddie, 2013-10-10 It is usually claimed that serfs were oppressed and unfree but is this assumption true Freedom's Price building on a new reading of archival material attempts a fundamental re appraisal of the continuing orthodoxy that a serf economy embodied peasant exploitation It reveals that in fact Prussian subject peasants fared much better than their free neighbours they had mutual rights and obligations with nobles and the state In this volume Sean Eddie seeks to establish the true price of freedom paid by the peasants both in the so called Second Serfdom around 1650 and in the enfranchisement of 1807 21 Far from representing further exploitation the peasants drove a hard bargain and many nobles subsequently fared worse than their tenants

subjection was abolished and land ownership was transferred from noble to peasant Capital was therefore at the centre of the pre capitalist economy and the growing economic polarization of society owed more to the peasants access to capital than to noble exploitation By locating Prussian serfdom and reforms in a pan European context and within debates about the nature of economic development feudalism and capitalism Freedom s Price targets a wider audience of early modern and modern European historians economic historians and interested general readers

P. Koppen,2013-06-03

During the past decade smallholder groundwater irrigation with motor pumps has increased considerably in Zambia The present study analyzes an important but hitherto ignored factor for adoption the supply chain of imported motor pumps Findings include types of pumps organization of import wholesale and retail including after sales services fiscal measures import duty waiver and VAT zero rating prices of pumps and financing facilities to the farmers The main obstacles for farmers were found to be the highly centralized supply chain and financing facilities in urban hubs lack of information also about prices which vary significantly even for the same make and model of pump lack of information and training about proper use and maintenance and lack of financing facilities The Zambia National Farmers Union seems best placed to remove these obstacles

Sustainable Water Management in Smallholder Farming Sara Finley,2016-07-27 Water is critical to all human activities but access to this crucial resource is increasingly limited by competition and the effects of climate change In agriculture water management is key to ensuring good and sustained crop yields maintaining soil health and safeguarding the long term viability of the land Water management is especially challenging on smallholder farms in resource poor areas which tend to be primarily rainfed and thus highly dependent on unreliable rainfall patterns Sustainable practices can help farmers promote the development of soils plants and field surfaces to allow maximum retention of water between rains and encourage the efficient use of each drop of water applied as irrigation Especially useful for farmers groups agricultural extension workers NGOs students and researchers working with farmers in dryland areas this comprehensive yet concise book is a practical and accessible resource for anyone interested in sustainable water management **Routledge**

Handbook of Gender in South Asia Leela Fernandes,2021-11-15 This new edition of the Routledge Handbook of Gender in South Asia provides a comprehensive overview of the study of gender in South Asia The Handbook covers the central contributions that have defi ned this area and captures innovative and emerging paradigms that are shaping the future of the field It offers a wide range of disciplinary and interdisciplinary perspectives spanning both the humanities and social sciences focusing on India Pakistan Bangladesh and Sri Lanka This revised edition has been thoroughly updated and includes new chapters thus adding new areas of scholarship The Handbook is organized thematically into five major parts Historical

formations and theoretical framings Law citizenship and the nation Representations of culture place identity Labor and the economy Inequality activism and the state The Handbook illustrates the ways in which scholarship on gender has contributed to a rethink of theoretical concepts and empirical understandings of contemporary South Asia Finally it focuses on new areas of inquiry that have been opened up through a focus on gender and the intersections between gender and categories such as caste ethnicity sexuality and religion This timely study is essential reading for scholars who research and teach on South Asia as well as for scholars in related interdisciplinary fields that focus on women and gender from comparative and transnational perspectives *Acacia mangium Willd: Ecology and Silviculture in Vietnam* Chaw Chaw Sein, Ralph Mitlöhner, 2011-01-13

This manual summarises information on the ecology and silviculture of the species *Acacia mangium* Willd with an emphasis on Vietnam It also encompasses growth and yield data from published sources as well as collected from sites under smallholder industrial plantations in Phu Tho Province Vietnam This manual is 1 of 5 that guide smallholder tree planting of 5 selected tree species in Vietnam The other 4 species are *Acacia hybrid* *Cinnamomum parthenoxylon* Jack Meisn *Erythrophloeum fordii* Oliver and *Eucalyptus urophylla* S T Blake The Government of Vietnam is carrying out a large scale reforestation programme with the aim of improving local livelihood security environmental sustainability and industrial wood supply Smallholders are involved in plantation timber production through various schemes Generally these reforestation efforts have been effective even though smallholders often lack the appropriate technical knowledge and management skills Consequently the quality and quantity of wood products may be suboptimal The productivity of smallholder plantations can be improved by enhancing smallholders management knowledge and skills including species selection site matching silvicultural management to produce high quality products and pest and disease management
