White,E.L. White,2013-04-17 This volume has its roots in the distant past of more than 20 years ago the International Hydrologic Decade IHD 1964 1974 One of the stated goals of the IHD was to promote research into groundwater situations for which the state of knowledge was hopelessly inadequate One of these problem areas was the hydrology of carbonate terrains Position papers published early in the IHD emphasized the special problems of karst carbonate terrains were supposed to receive a substantial amount of attention during the IHD There were indeed many new contributions from European colleagues but unfortunately in the United States the good intentions were not backed up by much in the way of federal funding Some good and interesting work was published particularly by the U S Geological Survey USGS but in the academic community the subject languished About this same time the Cave Research Foundation CRF organized in 1957 to promote the systematic exploration survey and scientific study of the great cave systems of Mammoth Cave National Park was casting about for a broader scope for its research activities Up until that time CRF research had been largely restricted to detailed mineralogical and geological investigations within the caves with the main part of the effort concentrated on exploration and survey The decision to investigate the hydrology required a certain enlargement of vision because investigators then had to consider the entire karst drainage basin rather than isolated fragments of cave passage      **The Historical Memorial of the Centennial Anniversary of the Presbytery of Huntingdon** Presbyterian Church in the U.S.A. Presbytery of Huntingdon,1896      **Geological Survey Water-supply Paper** ,1956      *Flowering of the Cumberland* Harriette Simpson Arnow,2013-04-01 Harriette Arnow s search for truth as early American settlers knew it began as a child the old songs handed down stories and proverbs that colored her world compelled her on a journey that informs her depiction of the Cumberland River Valley in Kentucky and Tennessee Arnow drew from court records wills inventories early newspapers and unpublished manuscripts to write *Seedtime on the Cumberland* which chronicles the movement of settlers away from the coast as well as their continual refinement of the art of pioneering A companion piece this evocative history covers the same era 1780 1803 from the first settlement in what was known as Middle Tennessee to the Louisiana Purchase When Middle Tennessee was the American frontier the men and women who settled there struggled for survival land and human dignity The society they built in their new home reflected these accomplishments vulnerabilities and ambitions at a time when America was experiencing great political industrial and social upheaval      **Southern Ohio Fishing Map Guide** Sportsman's Connection,2016-07-01 Newly updated for 2016 the Southern Ohio Fishing Map Guide is a thorough easy to use

White, 2015-04-20 This book highlights some of the most difficult and persistent exploration ever undertaken in the United States in Burnsville Cove a small limestone valley in west central Virginia while at the same time reviewing the scientific discoveries made in the area s 116 km of caves in the course of 50 years Overall the book offers a unique combination of exploration and science by a conservation organization specifically dedicated to the preservation and study of the caves

*Creston Generating Station, Transmission Facilities*, 1982 **Caves and Karst of the Greenbrier Valley in West Virginia** William B. White, 2017-11-20 The focus of this book is on the more than 2000 caves of the Greenbrier Valley of West Virginia of which the 14 with lengths greater than 10 km have an aggregate length of 639 km The major caves form the core part of sub basins which drain to big springs and ultimately to the Greenbrier River Individual chapters of this book describe each of the major caves and its associated drainage basin The caves are formed in the Mississippian Greenbrier Limestone in a setting of undulating gentle folds Fractures lineaments and confining layers within the limestone are the main controlling factors The caves underlie an extensive sinkhole plain which may relate to a major erosion surface The caves are habitat for both aquatic and terrestrial organisms which are cataloged and described as are the paleontological remains found in some of the caves The sinkhole plain of the Greenbrier karst and the underlying complex of cave systems are the end result of at least a ten million year history of landscape evolution which can be traced through the evolving sequence of cave passages and which is described in this book
