Sipri Yearbook 1992 World Armaments And Disarmament:

SIPRI Yearbook 1992 Stockholm International Peace Research Institute, 1992 The SIPRI Yearbook 1992 continues SIPRI's review of the latest developments in nuclear weapons, nuclear explosions, world military expenditure, the international arms trade and arms production, chemical and biological weapons, the military use of outer space, the proliferation of ballistic missile technology, armed conflicts in 1991, US-Soviet nuclear arms control and conventional arms control in Europe.

The Evolution of Biological Disarmament Nicholas Roger Alan Sims, 2001 The evolution of the disarmament regime of the 1972 Biological and Toxin Weapons Convention (BTWC) is described from 1980 when the first BTWC Review Conference was held until 1998. The author analyses the results of our first four review Conferences, the meetings of the Ad Hoc Group of Governmental Experts to Identify and Examine Potential Verification Measures from a Scientific and Technical Standpoint, the 1994 Special Conference, the current negotiations of the Ad Hoc Group to produce an additional protocol to the BTWC which may include verification measures handling of the 1997 Cuban allegation of US biological warfare and the implementation of Article X of the BTWC on international transfers and cooperation for peaceful purposes. The strength of the BTWC regime is assessed in the light of its evolution through the review process and its changing contents including Russia's admission that it had inherited an offensive biological weapon programme. The book applies an original sector by sector approach to its analysis of the BTWC studied in a long term perspective.

The New Pacific Community in the 1990s Young Jeh Kim, 2016-09-16 With the end of the Cold War and the subsequent new regional alignments, American foreign policy and influence in the Asia Pacific region face a major turning point. In this book ten North American specialists from various disciplines reconceptualize the forces shaping the New Pacific Community, international politics as a by product of peaceful cooperation, the changing role of the military, the political economy as a determinant of human rights, environmental and demographic issues and culture as an evolutionary and dynamic phenomenon in the lives of new immigrants as they make their way in American society.

Part One facing pages of text and graphs provide information on 40 carefully selected indicators mapping changes in food supplies, agriculture, the atmosphere, energy and transport, natural resources, the global economy, society and health and the military. Part Two of the text contains special features on less celebrated trends including ten new vital signs indicators such as violence against women, how the environment impacts on the insurance industry and the proliferation of landmines.

Pacific Cooperation John Ravenhill, Vinod Aggarwal, Paul M. Evans, Pauline Kerr, 2019-06-20 Long divided by cultural, economic and political differences, the Asia Pacific region has little history of multilateral cooperation. Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states. The end of the Cold War however has created new opportunities for multilateral coo

European Security Bjørn Møller,2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Striving for Military Stability in Europe Jane Sharp,2010-04-05 First Published in 2004 This new book traces the changing relationship between Russia and NATO through the prism of conventional arms control and focuses on the negotiation implementation and adaptation of the Conventional Armed Forces in Europe CFE Treaty It shows that arms control agreements reflect rather than affect rela tions between parties The CFE Treaty codified parity between NATO and the Soviet led Warsaw Treaty Organization WTO in November 1990 reflecting the status quo at the end of the cold war The benefits were short lived for Russia however Although still widely viewed in the West as the cornerstone of security and stability in post cold war Europe from the Russian perspective the treaty was soon overtaken by events With the collapse of the WTO and the Soviet Union in 1991 it became impossible to talk of a military balance between east and west in Europe especially as all the former WTO states opted for membership in NATO This study details how the other state parties worked hard to adjust and adapt the treaty to meet Russian concerns about its new weakness relative to NATO and the issues that complicated Russian acceptance of CFE limits

This book will be of great interest to all students of Russia NATO European politics international relations and strategic studies in general All Our People , *A Bargain for Humanity* Douglas Roche,1993 With this timely and illuminating book Douglas Roche has again demonstrated that he is one of the most perceptive and prophetic harbingers of the new world order and of the indispensable role of the United Nations in achieving it
