**Winged Words** Herbert Leslie Stewart, 1954      *Sir Winston Churchill as Writer and Speaker* Herbert Leslie Stewart, 1954      **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index      **Winston Churchill's Imagination** Paul Kent Alkon, 2006 Although Churchill is a 1953 Nobel laureate in literature his famous speeches have overshadowed his other writing Winston Churchill's Imagination concentrates on key works in modes other than political rhetoric to show how Churchill engages readers with those words and ideas that are hallmarks of his imagination Chapters take up his literary relationship with Lawrence of Arabia Churchill's intense but little known involvement with cinema in an essay on Charlie Chaplin and as a script writer and consultant in the 1930s for Alexander Korda's film studio Churchill's evocation of paintings as templates for narrative in his first history and in his only novel his imaginative engagement with science and science fiction the depiction of time duration and alternative history in his biography of Marlborough and Churchill's last testament in the realm of imagination The Dream      The Roar of the Lion Richard Toye, 2013-08-22 My aunt listening to the Prime Minister's speech remarked of our greatest orator He's no speaker is he diary of teacher M A Pratt 11 Nov 1942 The popular story of Churchill's war time rhetoric is a simple one the British people were energized and inspired by his speeches which were almost universally admired and played an important role in the ultimate victory over Nazi Germany Richard Toye now re-examines this accepted national story and gives it a radical new spin Using survey evidence and the diaries of ordinary people he shows how reactions to Churchill's speeches at the time were often very different from what we have always been led to expect His first speeches as Prime Minister in the dark days of 1940 were by no means universally acclaimed indeed many people thought that he was drunk during his famous finest hour broadcast and there is little evidence that they made a decisive difference to the British people's will to fight on In actual fact as Toye shows mass enthusiasm sat side by side with considerable criticism and dissent from ordinary people Yes there were speeches that stimulated invigorated and excited many But there were also speeches which caused depression and disappointment in many others and which sometimes led to workplace or family arguments Yet this more complex reality has been consistently obscured from the historical record by the overwhelming power of a treasured national myth The first systematic archive based examination of Churchill's World War II rhetoric as a whole The Roar of the Lion considers his oratory not merely as a series of great speeches but as calculated political interventions which had diplomatic repercussions far beyond the effect on the morale of listeners in Britain Considering his failures as well as his successes the book moves beyond the purely celebratory tone of much of the existing literature It offers new insight into how the speeches were written and delivered and shows how Churchill's words

were received at home amongst allies and neutrals and within enemy and occupied countries This is the essential book on Churchill s war time speeches It presents us with a dramatically new take on the politics of the 1940s one that will change the way we think about Churchill s oratory forever *Congressional Record* United States. Congress,1965
