Situated Fathering:

Situated Fathering William Marsiglio, Kevin Roy, Greer Litton Fox, 2005-07-28 Situated Fathering proposes a new theoretical framework for studying how various contingencies of physical space in conjunction with social symbolic issues affect men's identities as fathers and their involvement with children. Written largely for family scholars and students by an interdisciplinary team of leading scholars, this distinct volume of original research explores fathers in a wide range of physical and social spaces. Contributors outline directions for theoretically guided research in specific, often gendered, fathering sites.

Intimate Fatherhood Esther Dermott, 2014-06-11 Fatherhood is gaining ever more public and political attention, stimulated by the increasing prominence of fathers' rights groups and the introduction of social policies such as paternity leave. *Intimate Fatherhood* explores discourses of contemporary fatherhood, men's parenting behaviour, and debates about fathers' rights and responsibilities. The book addresses the extent to which fatherhood has changed by examining key dichotomies: culture versus conduct, involved versus uninvolved, and public versus private. The book also looks at longstanding conundrums such as the apparent discrepancy between fathers' acceptance of long hours spent in paid work combined with a preference for involved fathering. Dermott maintains that our current view of good fatherhood is related to new ideas of intimacy. She argues that in order to understand contemporary fatherhood, we must recognise the centrality of the emotional father-child relationship, that the importance of breadwinning has been overstated, and that flexible involvement is viewed as more important than the amount of time spent in childcare. Drawing on original qualitative interviews and large-scale quantitative research, *Intimate Fatherhood* presents a sociological analysis of

contemporary fatherhood in Britain by exploring our ideas of good fatherhood in relation to time use finance emotion motherhood and policy debates This book will interest students academics and researchers in sociology gender studies and social policy

Nurturing Dads William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group but the breadwinning live in biological dad prevails as the fatherhood ideal Consequently policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father child relationships and creative co parenting regardless of marital or residential status In Nurturing Dads William Marsiglio and Kevin Roy explore the ways new initiatives can address the social cultural and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children What makes a good father The firsthand accounts in Nurturing Dads show that the answer to this question varies widely and in ways that counter the mainstream provide and reside model of fatherhood Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings including fathers to be young adult fathers middle class dads stepfathers men with multiple children in separate families and fathers in correctional facilities They find that most dads express the desire to have strong close relationships with their children and to develop the nurturing skills to maintain these bonds But they also find that disadvantaged fathers including young dads and those in constrained financial and personal circumstances confront myriad structural obstacles such as poverty inadequate education and poor job opportunities Nurturing Dads asserts that society should help fathers become more committed and attentive caregivers and that federal and state agencies work sites grassroots advocacy groups and the media all have roles to play Recent efforts to introduce state initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children to co parent with mothers to establish partnerships with their children s other caregivers and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids Ultimately Marsiglio and Roy argue such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering Care is a human experience not just a woman s responsibility and this core idea behind Nurturing Dads holds important implications for how society supports its

families and defines manhood The book promotes the progressive notion that fathers should provide more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association's Rose Series in Sociology
