Sceptical Essays Bertrand Russell, 2021-09-08 These propositions may seem mild yet if accepted they would absolutely revolutionize human life With these words Bertrand Russell introduces what is indeed a revolutionary book Taking as his starting point the irrationality of the world he offers by contrast something wildly paradoxical and subversive a belief that reason should determine human actions Today besieged as we are by the numbing onslaught of twenty first century capitalism Russell s defence of scepticism and independence of mind is as timely as ever In clear engaging prose he guides us through the key philosophical issues that affect our daily lives freedom happiness emotions ethics and beliefs and offers no nonsense advice

Skeptical Linguistic Essays Paul M. Postal, 2004-01-15 This volume consists of an introduction and two groups of essays by Paul M Postal each with a connecting theme The first positive group of papers contains five previously unpublished studies of English syntax These include a long study of so called locative inversion two investigations related to raising to non subject status an argument for the existence of a hitherto ignored nominal grammatical category and a study of vulgar negative polarity items Each investigation of specific English details is argued to have significant theoretical consequences The second negative group of papers contains seven essays each of which seeks to show that aspects of contemporary linguistic activity are in part contaminated by elements of what is called junk linguistics Postal uses the term to denote work which advances proposals puts forward claims and asserts deep results which he argues can only be accepted by ignoring serious standards of inquiry and scholarship Postal claims that much of this work is nonetheless currently considered not only serious but prestigious reveals the problem to exist at the core of the field not its periphery These chapters include documentation of junk linguistic aspects in National Science Foundation refereeing work on the foundations of linguistics and even in widespread terminological usages The final chapter briefly lists personal suggestions for dealing with this problem

Sceptical Essays Bertrand Russell, 2004 Table of contents Skeptical Essays Benson Mates, 1981 **Essays on Skepticism, Relativism, and Ethics in the Zhuangzi** Paul Kjellberg, P. J. Ivanhoe, Chair Professor of East Asian and Comparative Philosophy and Religion and Director of the Center for East Asian and Comparative Philosophy (Ceacop) Philip J Ivanhoe, 1996-01-01 The Chinese philosophical text Zhuangzi was written by Zhuangzi in the fourth century BCE With humor and relentless logic Zhuangzi attacks claims to knowledge about the world especially evaluative knowledge of what is good and bad or right and wrong This book is about the man and the text *Essays in Moral Skepticism* Richard Joyce, 2016 This volume draws together Richard Joyce s work from the last decade on moral skepticism the view that there is no such thing as moral knowledge Joyce s radical view is that in making moral judgments speakers attempt to state truths but that the world isn t furnished with the properties and relations necessary to render such judgments true **Living Skepticism. Essays in Epistemology and Beyond**, 2022-10-17 This book of original papers offers fresh approaches to skepticism a topic in philosophy with a noble two millennia history and one that even inaugurated

modern philosophy in Descartes's *Meditations*. Particularly with the rise of scientific forms or models of philosophy, skepticism today is often treated as a dead end not worthy of serious reflection. In contrast to this prevailing attitude, the skepticisms discussed in these pages are alive. Here are assembled leading thinkers who claim at least some forms of skepticism to be true, e.g., skepticism about ethics or metaphysics, or insightful enough to be a lasting source of philosophical enlightenment and inspiration.

Philosophy from a Skeptical Perspective Joseph Agassi, Abraham Meidan, 2008-06-02 One of the questions that philosophers discuss is: How can we avoid or at least reduce errors when explaining the world? The skeptical answer to this question is: We cannot avoid errors since no statement is certain or even definitely plausible, but we can eliminate some past errors. This book advocates the skeptical position and discusses its practical applications in science, ethics, aesthetics, and politics. It brings philosophy down to earth and comprises an outline of a skeptical guide to the real world.

Skeptical Philosophy for Everyone Richard H. Popkin, 2010-06-02 Highly recommended as a first philosophy book. Library Journal. This lucid, informal, and very accessible history of Western thought takes the unique approach of interpreting skepticism, i.e., doubts about knowledge claims and the criteria for making such claims, as an important stimulus for the development of philosophy. The authors argue that practically every great thinker from the time of the Greeks to the present has produced theories designed to forestall or refute skepticism. From Plato to Moore and Wittgenstein, the influence of and responses to such 20th-century skeptics as Russell and Derrida are also discussed critically. Popkin and Stroll review each major theory of philosophy chronologically and then further organize these theories into their respective subject areas: metaphysics, epistemology, ethics, political philosophy, and philosophy of religion. Within each subject area, the authors discuss how the skeptical challenge gave rise to new philosophical positions. The volume concludes with an especially interesting debate between the authors on the merits of skepticism today. Stroll thinks that ultimately the doubts expressed by skeptics can be refuted, while Popkin denies this. This is an outstanding introduction to the problems of philosophy by two eminent philosophers with a gift for presenting the history of ideas in a very enjoyable fashion. Richard Popkin, Los Angeles, CA, is professor emeritus of philosophy at Washington University, St. Louis, and adjunct professor of history and philosophy at the University of California at Los Angeles. Avrum Stroll, San Diego, CA, is research professor of philosophy at the University of California, San Diego.

The Crisis of American Democracy: Essays on a Failing Institution Leland Harper, 2022-03-15 The essays in *The Crisis of American Democracy: Essays on a Failing Institution* seek to answer central questions about American democracy, such as: if American democracy is

failing what are the causes of this failure What are the consequences And what can be done to fix it These standalone essays present diverse perspectives on some of the impediments to achieving a true democracy in the present day United States of America as well as prescriptions for overcoming these obstacles Leading academics from across North America contribute their perspectives on this timely debate *Explanatory Solutions to Skeptical Problems* Kevin McCain,2025-01-12

Phenomenal Explanationism is a powerful new theory of epistemic justification that combines an explanationist conception of evidential support with an appearance based or phenomenal conception of evidence According to PE epistemic justification is a matter of what best explains our evidence which ultimately consists of appearances It is a complete internalist theory of epistemic justification that delivers on the promises of other appearance based theories while avoiding their pitfalls In *Explanatory Solutions to Skeptical Problems* Kevin McCain expands his previous work on the internalist dimension of the theory to cover external world skepticism He also demonstrates how PE offers solutions to a host of other perennial skeptical problems including the problem of the criterion the regress of justification memory skepticism and inductive skepticism The promise that PE displays in responding to these problems makes it plain that it is a viable conception of epistemic justification worthy of careful consideration and also that accepting internalism more generally doesn't leave one without reasonable responses to skeptical problems **Encyclopedia of the Essay** Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **Skepticism** Aryeh Botwinick,2010-06-18 Aryeh Botwinick argues for the recovery of a radical democratic tradition that emphasizes the role of individual participation in the development and control of social and political institutions Such involvement implies philosophical skepticism the assumption that the truth about what is the best course of action cannot be known with certainty and that therefore every person's opinion has an equal claim to be considered The crucial stumbling block to reappropriating this radical egalitarian tradition is the supposed unviability of a consistent skepticism In an effort to chart a new course of philosophical inquiry into political matters Botwinick grapples with the formulation of a consistent version of skepticism claiming that it provides a continually renewing impetus for the expansion of political participation Twentieth century philosophers have for the most part opted for some version of mitigated skepticism which the author argues has blinded them to the radical political implications of skepticism Underscoring a pattern of convergence between Anglo American and Continental philosophy Botwinick proposes a number of strategies to rehabilitate the rationality of participatory democratic political institutions by articulating an acceptable version of consistent
