Body Process James I. Kepner, 2014-10-14 Traditional psychotherapy approaches focusing on working with and correcting mental events and conditions have placed little importance on the fundamentally physical nature of the person Yet many of the problems people bring to therapy are linked with or manifested in the body such as obesity psychosomatic distress chronic tension and sexual problems This book provides a therapeutic approach that addresses both the physical and mental nature of clients In this book James Kepner shows that a client s posture movements and bodily experiences are indeed relevant to therapy and he offers an insightful framework for incorporating these aspects into a therapeutic

framework This comprehensive treatment explains how body work can be integrated with the aims methods and philosophy of psychotherapy offering a framework within which practitioners of different theoretical approaches can better appreciate body processes in the context of the whole person rather than as isolated events This book including an updated introduction by the author explores the range of body work in psychotherapy from the development of body awareness to intensive work with physical structure and expression And it demonstrates how this approach can be particularly effective with a range of clients including survivors of sexual abuse recovering drug addicts or alcoholics or those suffering from chronic illness

Stephan Hausner,2015-06-03 Family constellations work has broadened and developed in many different fields as a method of counseling and therapy In addition to constellations in organizations and schools applying this approach to working with illness and disease has expanded the potential for healing effects in the field of medicine as well A view of transgenerational entanglements and family dynamics casts a new light on health and disease and the insights gained from constellations with illness and health problems have led to a more holistic view of those who are ill In *Even if it Costs me my Life* Stephan Hausner aims to provide a picture of the healing potential of systemic constellations entering into the reciprocal effects of family dynamics and illness Extensive use of case studies demonstrates this technique in action revealing how existing illnesses and pathologies are rooted within the family dynamic and setting up healing postures to facilitate growth development and direction
