Grassroots Engagement and Social Justice through Cooperative Extension Nia Imani Fields, Timothy J. Shaffer, 2022-08-01
Grassroots Engagement and Social Justice through Cooperative Extension grows out of a commitment to the belief that Cooperative Extension professionals can and should be deeply engaged with the communities they work in to improve life individually and collectively Rooted in an understanding of the history and development of Extension the authors focus on contemporary efforts to address systemic inequities They offer an alternative to the expert model that would have Extension educators provide information detached from the difficult and sometimes contentious issues that shape community work These essays highlight Extension's role in and responsibility for culturally relevant community education that is rooted in democratic practices and social justice The ultimate aim of this book is to offer a vision for the future of Extension as its practitioners continue to reach for cultural competence necessary to address issues of systemic injustice in the communities they serve and of which they are a part Perspectives on Public Policy in Societal-Environmental Crises Adam Izdebski, John Haldon, Piotr Filipkowski, 2022-07-14 This is an open access book Histories we tell never emerge in a vacuum and history as an academic discipline that studies the past is highly sensitive to the concerns of the present and the heated debates that can divide entire societies But does the study of the past also have something to teach us about the future Can history help us in coping with the planetary crisis we are now facing By analyzing historical societies as complex adaptive systems we contribute to contemporary thinking about societal environmental interactions in policy and planning and consider how environmental and climatic changes whether sudden high impact events or more subtle gradual changes impacted human responses in the past We ask how societal perceptions of such changes affect behavioral patterns and explanatory rationalities in premodernity and whether a better historical understanding of these relationships can inform our response to contemporary problems of similar nature and magnitude such as adapting to climate change **German and English** Felix Flügel, 1891 Allgemeines Englisch-Deutsches und Deutsch-Englisches Wörterbuch Johann Gottfried Flügel, 1894 *Novitates Zoologicae*, 1914 **Island in the Sea of Time** S.
