Small World, Big Ideas Satish Kumar, 2022-03-01 Small World Big Ideas collects twelve of the most inspiring and courageous activists together to share their stories and present an inspiring vision of what each of us can do to build a better world today There s an activist in all of us and you don t have to shout about it to be heard And to prove it life long campaigner and former Jain monk Satish Kumar has invited twelve of those activists he most admires to share their own inspiring stories in Small World Big Ideas revealing some for the very first time who or what made them want to change the world and what kind of world they want to help create This book collects the thoughts hopes and visions of some of the most significant figures in the global fight for a better and more compassionate world As well as Satish Kumar we hear from Deepak Chopra The mind body healing pioneer discusses his journey from growing up in post war India to learning about Ayurvedic medicine to his current work promoting spiritual knowledge and working for world peace Jane Goodall The renowned scientist and conservationist tells of the people who have inspired her in her work to protect animals and the reasons she has for hope in the future Franny Armstrong The McLibel filmmaker writes about her politicisation as a teenager her involvement with the Greenpeace movement and the next steps in the fight against climate change Bob Brown The Australian Green politician shares stories from his time as an ecologist and lawmaker and his belief in how democracy can be used to bring people together to fight the looming crises facing Planet Earth Tim Flannery The explorer and ecologist tells of watching the ecosystems around him disappear his travels to remote areas around the world and how the only hope for our future lies in connecting with others to act together Polly Higgins The late environmental lawyer discusses how the concept of Earth Law and how she came to fight for ecocide to be recognised as a crime against humanity Caroline Lucas England s only Green MP Lucas writes about how she has fought all her life to change the political system and how radical change is

always possible Bill McKibben The writer and activist discusses moving from writing to political campaigning and how he founded 350 org the global grass roots organization that works to halt and reverse climate change Carlo Petrini The slow food advocate tells of growing up in Piedmont and of how we can change the world by putting food back at the centre of our lives Vandana Shiva The ecofeminist discusses how the multiple crises which she has fought climate change misogyny and inequality are all interlinked and how our response must be similarly all encompassing Whether they have championed the tragic plight of Indian farmers impoverished by the domination of the agro giants or shamed Hollywood into treating climate change as a serious concern these are the people who have made their voices heard Their illuminating and often moving life stories will inspire all of us to get off the couch and do something ourselves to help shape a better world **World 2.0**

Shuichi Fukuda,2020-08-18 This book explores on how the Internet of Things IoT will change society by bringing living and non living things together The IoT is currently attracting considerable attention but most of the discussions focus on engineering aspects alone The IoT however is not an extension of traditional engineering where humans and machines are separated Instead it connects humans and machines enabling them to work together as a team the IoT Connected Society In traditional engineering our knowledge and experience of physical and non living things plays a key role but such knowledge and experience alone are not enough We need to introduce life science approaches and integrate them into physical science to really develop the IoT connected society In addition the Internet is not only a tool for delivering messages it is a broader communication tool In the IoT connected society living things and non living things communicate in complex ways Machines

can provide humans with a improved situational awareness and advice and together they can communicate to develop a better happier society Thus this book makes the case that to make the IoT connected society a reality we need to integrate the physical and life sciences and develop a new science for the next generation of engineering **The Little Book of Small World Play** Sharon

Ward,2015-06-04 Small world play activities provide opportunities for learning both indoors and outdoors Play activities help children learn with both enjoyment and challenge All the activities in this book can be adapted to suit your setting and the topics you are covering Collecting your own resources for the activities and exploring them with your children will give as much pleasure as using them in adult directed activities **Principle-centered Education Through Community**

Development Sai Tedla,2023-09-15 How can we forge an educational approach that is compassionate inclusive and founded on humanity s benevolent qualities One answer lies in honoring what is shared in common by all in Nature and including it in a Principle centered Education Program The Sol Education Program with its Community building process is such a Program that is founded on the one word Principle TruthLovePeace The Program emphasizes integrity and character since these are

practical expressions of The Principle TruthLovePeace and therefore indispensable to any education sector community center or work place Accordingly the Sol Education Program can be tailor to the needs of 1 different education sectors i e formal non formal and informal education 2 community centers and 3 work places In the Sol Education Program Nature means the same as Community of Life This Community of Life is composed of humans water land air animals insects worms organisms plants life fostering elements like earth water energy sun air space and the rest of the universe What is shared in common in the Community of Life is existence isness being We are inseparably held as one by existence or being In other words we are not isolated or disconnected individuals who stand apart from each other or from the organic whole that is Nature Whatever happens to Nature as a whole impacts us all When we recognize and honor the being or existence that we share in common we respect Nature instead of exploiting it The common ground that affirms this Community of Life is the unified and unifying Principle which is composed of seven aspects that are written as one word

TruthLovePeaceGoodnessBeautyWisdomHappiness or briefly as TruthLovePeace Since TruthLovePeace cannot coexist with falsehood injustice exploitation hatred cruelty and turmoil we find that GoodnessBeautyWisdomHappiness is also absent where TruthLovePeace is missing Taking a closer look we find that humans on the whole value having TruthLovePeace in their lives and in the lives of those they hold near and dear to them In recognition of the commonality shared by humanity and the rest of Nature the Sol Education Program uses The Principle TruthLovePeace as its foundation The Program therefore commences by establishing its Sol Community Sol Villages Sol Homes and activities on The Principle TruthLovePeaceGoodnessBeautyWisdomHappiness In its learning and teaching ways Sol Education incorporates the learner centered the inquiry based and the learner participatory approaches Each member of the Sol Community Student Parent adopted Grandparent Teacher Professor Peer Advisor and Educator is viewed as both a Learner and a Teacher in the Community of Life All Sol Members as Learners and Teachers are encouraged to express their benevolent high Self in all daily interactions and activities by affirming The Principle TruthLovePeace In other words all Sol Members are regarded as Keepers of The Principle TruthLovePeace thus making selfless Service or Labor of Love the beating heart of Sol Community Every Sol Elder Teacher Professor Peer Advisor Educator and adopted Sol Grandparent is to exemplify Respectfulness in action so that our children and youth can experience the meaning of Respect and Appreciation This Respect and Appreciation for all includes tapping lightly from the bounty of Nature without harming others or taking more than we need *Our World Community* Marcellus Albertin, Marjorie Brathwaite, 2002 **It's a Small World After All** Jesper Leonard Vun, 2021-06-14 Experts say that a pandemic like the Spanish flu happens once in a century Well time s up In December 2019 the world witnessed the emergence of a new pathogen that brought it to a standstill The novel Coronavirus outbreak was declared a pandemic and governments worldwide executed unprecedented measures to contain it The impact on life was devastating Overnight people became more aware of self hygiene and the importance of social distancing However many are still left in

the dark when it comes to the why This book introduces the basics of Microbiology covering essential concepts that answer burning doubts What are microorganisms How do infection and disease occur Should I be vaccinated What is the difference between bacteria viruses protozoa and fungi How can I protect myself against harmful agents Besides it aims to bring about a renewed outlook and appreciation of life through the many food for thought incorporated in the writing This book is timely as there is an urgency for the public to understand the microscopic world and timeless because what is learnt today helps us better prepare for the future After all it s a small world where micros dictate macros Food Chains Margaret Jean Anderson,1991 Explores the concept of food chains and discusses their importance in nutrient cycles and in the maintenance of ecological balance **From Sea to Sky** Sneha Verghese,2025-05-20 Trees with ears Mosquitoes that are saviours Octopuses that operate tools and hoard rubble A bird that pretends its way out of trouble Butterflies that leave ants in a daze A creature that can survive nuking toxins and even outer space Birds obsessed with blue IS ALL THIS REALLY TRUE Find out all about these and more in this exciting collection of 25 fascinating stories that takes you up into the sky under the oceans over mountains through forests and across the world in a way you never imagined Introducing eager young readers to amazing science in the environment around them these tales break down complex concepts into easy to follow ideas while answering questions explaining scientific phenomena and sparking curiosity to explore the secret world of Nature Get set for a roller coaster ride of thrilling discoveries
