Sinking Of The Titanic Other Great Sea:

The Sinking of the Titanic and Great Sea Disasters Logan Marshall, 2012-08-07 This is one of the first and most famous books published after the sinking of the Titanic and contains much material from contemporary newspaper accounts. It was written by Logan Howard Smith under the pen name of Logan Marshall, an editor who specialized in the rapid publication of books about current events. For this book, his crowning achievement, the initial print run was for no fewer than 110 000 copies. The publisher achieved this by running 11 presses simultaneously and the books were then sold door to door across America for a dollar apiece. Although Marshall's own description of the sinking is melodramatic and sensationalistic, the many verbatim interviews with survivors of the disaster have stood the test of time and are often cited in Titanic literature.

Its narrative style oscillates between gripping historical recounting and reflective commentary, situating the Titanic disaster within the broader context of maritime technological advancement and human hubris, while illuminating the socio-cultural ramifications of such calamities on contemporary society. The contributors, a diverse group of maritime historians and literary scholars, were inspired by their fascination with naval history and the enduring legacy of the Titanic. Their extensive research into maritime safety regulations, the evolution of shipbuilding, and the human stories entwined with these disasters not only reflects their academic rigor but also their desire to memorialize those lost at sea. Their findings underscore the collective memories and lessons learned from these tragedies, preserving history for future generations.
