Armies of the First Sino-Japanese War 1894-95 Gabriele Esposito, 2022-10-27 Describes how newly modernized Japan waged war against China in its first overseas campaign marking its rapid transition into Asia's leading military power only 30 years after emerging from centuries of feudalism After the Meiji restoration of the Japanese imperial regime in 1868 77 modernization along Western lines of Japan's industry communications and land and naval forces

advanced with remarkable speed and by the 1890s the rejuvenated nation was ready to flex its muscles overseas. The obvious opponent was the huge but medieval Chinese Empire and the obvious arena for war was Korea, a nearby Chinese protectorate that Japan had long coveted. A secondary campaign would be fought on Formosa, Taiwan, an autonomous Chinese island protectorate. In this study, author Gabriele Esposito describes the bloodthirsty course of the Japanese campaign in China using colour illustrations and photos to showcase the organization, equipment and appearance of the various Chinese forces. China had no true national army, the Imperial Japanese Army and Navy, and for the first time in English, the Korean and Formosan participants. Japan's victory left it confident enough to challenge Imperial Russia, and nine years later it defeated it at the Battle of Tsushima, where two thirds of the Russian fleet was destroyed by the Japanese Navy. This victory confirmed Japan's place as Asia's leading military power, soon to become a realistic rival to the West. [The Treaty of Portsmouth and Its Legacies](#) Steven J. Ericson, Allen Hockley, 2008. The latest probing look at the 1905 Portsmouth Peace Treaty, the last peace agreement between Japan and Russia. [Imperial Co-operation and Transfer, 1870-1930](#), 2015-08-27. Conflict and competition between imperial powers has long been a feature of global history, but their co-operation has largely been a peripheral concern. [Imperial Co-operation and Transfer, 1870-1930](#) redresses this imbalance, providing a coherent conceptual framework for the study of inter-imperial collaboration and arguing that it deserves an equally prominent position in the field. Using a variety of examples from across Asia, Europe and Africa, this book demonstrates the ways in which empires have shared and exchanged their knowledge about imperial governance, including military strategy, religious influence and political surveillance. It asks how, when and where these partnerships took place and who initiated them. Not only does this book fill an empirical gap in the study of imperial history, it traces ideas of empire from their conception in imperial contact zones to their implementation in specific contexts. As such, this is an important study for imperial and global historians of all specialisms.

[South Korea since 1980](#) Uk Heo, Terence Roehrig, 2010-06-28. This book examines the changes in politics, economics, society and foreign policy in South Korea since 1980. Starting with a brief description of its history leading up to 1980, this book deals with South Korea's transition to democracy, the stunning economic development achieved since the 1960s, the 1997 financial crisis and the economic reforms that followed, and concludes with the North Korean nuclear crisis and foreign relations with regional powers. The theoretical framework of this book addresses how democratization affected all of these dimensions of South Korea. For instance, democratization allowed for the more frequent alternation of political elites from conservative to liberal and back to conservative. These elites initiated different policies for dealing with North Korea and held different views on South Korea's role in its alliance with the United States. Consequently, ideological divides in South Korean politics became more stark and the political process more combative. **[The History of Taiwan](#)** Xiaobing Li, 2019-10-25. This one-volume handbook explores the history of Taiwan from its prehistory to its Japanese colonization to its tumultuous relationship with China in the 21st century. This addition to the Greenwood Histories of the Modern Nations series focuses on

significant events in the history of Taiwan from ancient history to the present Following the general series format the book opens with the series foreword and a chronology of key events in Taiwan s history Eleven chapters follow with half of the book focusing on the modern historic events that occurred post World War II Chapters examine topics and eras including Pre history and Early Civilization to 1100 Formosa The Dutch Colony 1622 1662 Cold War Island Conflicts and Control 1950 1972 and Democratization and Independence Movement 1996 2004 A glossary of terms and annotated bibliography rounds out the work making it an ideal resource for high school and undergraduate students as well as general readers who are looking for an introduction to Taiwan s history

East Asia and the First World War Frank Jacob, 2022-10-24 The First World War was a truly global event that changed the course of history in many participating as well as non participating countries In East Asia the war stimulated the further rise of Japan as the leading power in the region during the war yet also its radicalization and social protests after 1918 In China and Korea it stimulated nationalist eruptions demanding freedom and equality for the semi colonized countries and the people living within their borders All in all the present book offers a concise introduction of the history of the First World War and its impact in East Asia
