Six American Families Paul Wilkes,1977 **An American Family** Jeffrey Ruoff,2002 Before 1973 the Loud family of Santa Barbara California lived in the privacy of their own home With the airing of the documentary An American Family that privacy extended to every American home with a television This book is the first to offer a close look at An American Family the documentary that blurred conventions stirred passions revised impressions of family life and definitions of private and public and began the breakdown of distinctions between reality and spectacle that culminated in cultural phenomena from The Oprah Winfrey Show to Survivor **A Catalog of Programs for the USIS Video Library** United States Information Agency. Television and Film Service,1985 *Physical Violence in American Families* Murray Straus,2017-09-04 The informative and controversial findings in this book are based on two path breaking national surveys of American families Both show that while the family may be the central locus of love and support it is also the locus of risk for those who are physically assaulted The book provides a wealth of information on gender differences and similarities in violence and on the effects of gender roles and inequality Two landmark American studies of violence from the National Family Violence survey form the basis of this book Both show that while the family may be the central locus of love and support it is also the locus of risk for those who are being physically assaulted This is particularly true for women and children who are statistically more at risk of assault in their own homes than on the streets of any American city Physical Violence in American Families provides a wealth of information on gender differences and similarities in violence and on the effects of gender roles and inequality It is essential for anyone doing empirical research or clinical assessment **American Families: Trends and Pressures, 1973** United States. Korean American Families in Immigrant America Sumie Okazaki, Nancy Abelman, 2018-10-09 An engaging ethnography of Korean American immigrant families navigating the United States Both scholarship and popular culture on Asian American immigrant families have long focused on intergenerational cultural conflict and stereotypes about tiger mothers and model minority students This book turns the tables on the conventional imagination of the Asian American immigrant family arguing that in fact families are often on the same page about the challenges and difficulties navigating the U S s racialized landscape The book draws on a survey with over 200 Korean American teens and over one hundred parents to provide context then focusing on the stories of five families with young adults in order to go in depth and shed light on today s dynamics in these families The book argues that Korean American immigrant parents and their children today are thinking in shifting ways about how each member of the family can best succeed in the U S Rather than being marked by a generational division of Korean vs American these families struggle to cope with an American society in which each of their lives are shaped by racism discrimination and gender Thus the foremost goal in the minds of most parents is to prepare their children to succeed by instilling protective character traits The authors show that Asian American and particularly Korean American family life is constantly shifting as children and parents strive to accommodate each other even as they forge their own paths toward

healthy and satisfying American lives This book contributes a rare ethnography of family life following them through the transition from teenagers into young adults to a field that has largely considered the immigrant and second generation in isolation from one another Combining qualitative and quantitative methods and focusing on both generations this book makes the case for delving more deeply into the ideas of immigrant parents and their teens about raising children and growing up in America ideas that defy easy classification as Korean or American **American Families in Tomorrow's Economy** United States. Congress. House. Select Committee on Children, Youth, and Families, 1988
