examined how the poverty got accentuated by migration of labour and the rich engaging them on security of contract basis for longer periods either paying measly compensation or with no wages They also restricted their mobility to leverage from their cheap labour This is reflected even in the new millennium in the form of denial of industrial democracy by some gigantic corporations to annihilate the bargaining power of the labour The book also mentions how disengaged nature of the democratic politics of the poor in the developed world kept them poorer and wanting in confidence Remedial measures have also been discussed in this study which as stressed by the author need to be continent specific rather than one cloth size fits all approach of the multilateral Institutions The book has not examined and researched poverty as one blanket entity but researched poverty at multi layered level and at each level the author got to the bottom of the issue and provided unique solutions The study suggests need for a gesture of benevolence of the developed world keeping in mind the downsides that resulted from colonization The book goes into the question of emergence of avoidance of practical education science and engineering education lack of interest in academic rigour in several industrial countries in the recent years which could be heavily challenging for future generations The book is unique in its dealing with remedial measures to which the book has considerably dedicated Following the Money in Yemen and Lebanon ,2010 Technical Analysis of Stock Trends Robert D.
