*Memories* Charles Kegan Paul, 1899      **Sadie's Secret** Barbara D. Hall, Jon C. Hall, 2007-12-26 This book is the fictional story of one man's journey from agnostic concerning unusual phenomena into the realm of belief in the existence of the Big Foot in the swamps of West Florida. Inspired by the natural beauty of present day Myakka River State Park not far from Sarasota, Florida, the story deals with human vulnerability to belief and how our natural propensity to adopt beliefs without scientific proof of their validity can be manipulated and used by others for their own purposes. The story is mostly seen through the eyes of Mike Byrne, a member of the local Palmetto County Historical Society, as he volunteers to interview the oldest known citizen of the county, Sadie Sutton. He gradually becomes convinced there is more to her distant past than what she is willing to disclose for the society records. He becomes open to the ideas of the speaker at a presentation sponsored by the local Almas Association where his suspicions quickly evolve into the belief that Sadie carries the blood of the DeBosi in her veins. As he struggles with his desire to prove his belief is true, Mike is drawn into the carefully structured snare of those who seek to use his belief for their own purposes. In this story, the end justifies the means in the name of a noble cause, and the swamp where Sadie has lived all her life is preserved. However, there is concern that belief, once encouraged and nurtured, may put in motion forces that will destroy the objectives of those who seek to take advantage of others. Jon C. Hall

**Memory** K. J. Parker, 2025-05-01 The exciting conclusion to K. J. Parker's Scavenger trilogy. Returning to his childhood home was supposed to bring peace for Poldarn. But it was not to be. The island proved no sanctuary from the ghosts of his past or from the demons that stalk his dreams. Instead, he has unearthed yet more lies, betrayals, and enemies from his former life. But with each fresh discovery, Poldarn is coming ever closer to the reality of his shadowy origins. One by one, the fragmented memories and obscure clues are falling into place, forming a truth he cannot escape, a past he cannot deny, and a history that may be more than he or anyone else can bear.      **We Are What We Remember** Laura Mattoon D'Amore, Jeffrey Meriwether, 2013-01-16 Commemorative practices are revised and rebuilt based on the spirit of the time in which they are recreated. Historians sometimes imagine that commemoration captures history, but actually, commemoration creates new narratives about history that allow people to interact with the past in a way that they find meaningful. As our social values change, race, gender, religion, sexuality, class, our commemorations do too. *We Are What We Remember: The American Past Through Commemoration* analyzes current trends in the study of historical memory that are particularly relevant to our own present: our biases, our politics, our contextual moment, and strive to name forgotten, overlooked, and denied pasts in traditional histories. Race, gender, and sexuality, for example, raise questions about our most treasured myths: where were the slaves at Jamestown? How do women or lesbians protect and preserve their own histories when no one else wants to write them? Our current social climate allows us to question authority and especially the authoritative definitions of nation, patriotism, and heroism, and belonging. How do we uncommemorate things that were miscommemorated in the past? How do we repair the damage done by past commemorations? The chapters in this book contributed by eighteen emerging and

established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before
