Past Trauma in Late Life Linda Hunt,Mary Marshall,Cherry Rowlings,1997 In the professional and practice literature on working with older people little attention has been given to the potential impact of trauma experienced in childhood and early adult life This book looks at the effect of trauma on behaviour which is often mistakenly viewed as part of the pathology of old age The contributors pay particular attention to the impact of the Holocaust and of the war experience of civilians and combatants as well as individual trauma The authors call for sensitivity on the part of professionals and carers to the possibility of early trauma as a causal factor in distress in older people The book encourages all those providing services to prepare themselves and their clients for a journey through what is often painful territory the material contained in this volume will help both specialist and non specialist practitioners to map a more certain course towards a coherent approach to therapeutic intervention and the care and support of many people still suffering from the consequences of earlier traumatic experiences **What Wild Ecstasy** John Heidenry,2002-03-22 From the former editor of *Penthouse Forum* comes a detailed and deep exploration of the sexual revolution and its issues including controversy over freedom of expression and the rights of gays and lesbians In this extensive history of three decades of sexual culture John Heidenry details the rise of the science of sexology the burgeoning of pornographic works that fanned controversies over freedom of expression and the lobbying of homosexuals With discussion of Bob Guccione Hugh Hefner Larry Flynt and other prominent figures Heiderny gives readers a peak at the rise and fall of the sexual revolution and its effect on society as a whole
