Just as a building needs a blueprint a business needs a business plan You may have an idea for a small business or to take over a business Entrepreneurs often look to repurpose an already existing product Your great idea needs to be exploited and your first step is to get other people on board possibly coworkers or people with a similar interest You ll want to share your idea with people in the know who might be willing to offer advice and evaluate their feedback even if these are just informal inquiries When you think in a group or do collective thinking you multiply the collective brain power Many believe you must have a college degree to impress potential financiers It s funny not in a ha ha way how people are so willing to take out a predatory student loan but once they ve achieved their educational goals they become much less inclined to go further into debt to start a new business Potential entrepreneurs need to understand that if you re going to work for yourself you do not necessarily need a degree for most small businesses Still if you re going to do an independent study streamline your education to conform to your business plans You don t need an MBA to be successful It s mostly about internal drive and forward thinking Taking out a large student loan may not be necessary for some self disciplined learners It is important to understand that education is generic In law school students are all taught the same curriculum regardless of what law school they go to This is because the education and bar exams are standardized They re looking for standardized conforming answers on the exams as all lawyers should have the same understanding of standard legal principles Business science disciplines are also standardized Many business principles are used in all types of businesses Common business issues often include acquiring financing developing a company structure developing a management team to execute business initiatives and maintaining a continuity within the workforce Business principles also include integrity transparency fairness social responsibility and professionalism Integrity is measured by how you conduct business Are your transactions transparent and fair In dealing with ongoing financial sources it is vital to maintain trust Anytime you re dealing with other people s money you re acting as a fiduciary That means you owe a duty of loyalty to the investor and are required that maintain a professional relationship with them This course provides entrepreneurs with standard concepts of business basics We re going to start by discussing how businesses are structured legally standard business sciences strategic management industrial and occupational psychology finance and developing a strategic workforce A traditional business plan format endorsed by the Small Business Administration is also included Understanding a little bit about these basic business disciplines provides a foundation for entrepreneurs to know where they need to do further independent research Business knowledge is ever changing and even people with business degrees need to constantly adapt new ideas and principles and independent research is all part of the learning process In the end your objective is to be able to answer questions about your business plan and explain how using accepted business principles will achieve your end game Investors need to feel comfortable with your business prowess You will want to take from this overview the information that is consistent with your individual business needs and develop a business plan If you are seeking finances I recommend that you use either the

Traditional Business Plan format or the Lean Startup format You want to know everything about the subject matter you incorporate into your plan as you ll probably have to be speaking extemporaneously and answering questions by potential financiers Often they re judging you by your short presentation This is your chance to shine To win them over you first have to know what you re talking about The objective of this publication is to provide you with a standardized understanding of basic business disciplines that are relevant to your business plan When you start a business enterprise you always want to ask yourself where do I want to be in five years Then ask yourself How can I get there Set your 5 milestone and then set your yearly stepping stones monthly etc what it s going to take to get you there Financiers will especially want to hear about future growth potentials Investors are going to want to hear about your 5 year projections You will need to become confident on issues germane to your plan That often requires independent research Design your study curriculum for building your business plan specific to your needs and learn how to leverage your business ideas without borrowing money Once your business takes off even though you may not need a college degree to launch and exploit your ideas you will eventually need to hire people with college degrees to fill various divisions as your business grows Some of the most successful entrepreneurs do not have prestigious degrees and tend to always think in terms of spending other people s money not their own

Strategies to Sustain Small Businesses Beyond 5 Years Dr. Kayaso Wani,2022-08-01 Starting a business might sound easy but sustaining it to be successful is challenging People are often afraid to start new businesses because at least everyone has known someone who started a business but failed or someone struggling to sustain a business Starting your own business and staying successful is the most exciting achievement This book Strategies to Sustain Small Businesses Beyond 5 Years is used worldwide to help aspiring or struggling business owners succeed The book is for anyone interested in doing business aEURC You might be a passionate creator starting your business out of love for what you do and believing that passion is a crucial quality of success running your business gives you a sense of accomplishment and pride aEURC You might be a freedom seeker starting your small business you value the ability to control your work experience and want to be in charge of your own schedules career path and work environment aEURC You might be a legacy builder starting a business to bring something new to the marketplace practical in your approach to business ownership aEURC You might be a struggling survivor profile representing the cold hard truth of business ownership aEURC You might be a Jack of all trades in your business spreading too thin from managing directive sales administrative duties to customer service This book is the path to success in your business Sometimes running a small business is more frightening than rewarding and the fear is real deeply rooted in you facing the challenges of ownership every day The motivation of a small business owner is as diverse as the business itself ItaEUR tm s very important to understand your category to know your strengths and weaknesses to adjust accordingly The Psychology of Small Business Owners Sukanlaya Sawang,Cindy Yunhsin Chou,Robbert A.
