Post-Conflict Rebuilding and International Law Ray Murphy,2017-03-02 This volume presents the research analysis of a range of scholars and experts on post conflict peacebuilding and international law from a variety of perspectives and missions The selected essays show that peacebuilding like the concept of peacekeeping is not specifically provided for in the UN Charter They also demonstrate that the record of peacebuilding like that of peacekeeping is varied and while both concepts are intrinsically linked neither lends itself to precise definition The essays consider the historical approaches to peacebuilding such as the role played by the UN in the Congo in the early 1960s and the work of the United States and its allies in rebuilding Germany and Japan in the aftermath of World War II Finally essays consider the major challenge for contemporary peacebuilding operations to make international administrations accountable and to ensure the involvement of the international community in helping rebuild communities and prevent the resurgence of violence **Overcoming Armed Violence in a Complex World** Michael Brzoska,Axel Krohn,2009-10-30 The nature of armed conflict has changed in recent decades This presents new challenges for the prevention of violence the promotion of disarmament and the securing of durable peace The essays in this book address important aspects related to these challenges with references to the work of prominent German peace researcher Herbert Wulf Topics covered include demilitarization small arms control security sector reform post conflict construction peace building in failed states and as guiding theme the limits and possibilities of security governance *State of the World 2005* Worldwatch Institute,2017-07-28 *State of the World 2005* takes a new and deeper look at the theme that has dominated international politics since 9 11 security Not the armed conflicts that occur when it breaks down but the underlying social economic and environmental pressures which determine how threatened and vulnerable people feel These include food water other natural resources exposure to environmental change and health threats Without equitable and sustainable management of these conditions lasting security cannot be achieved The result is a fascinating and illuminating volume that offers a new definition of security and the means to achieve it Published annually in 28 languages each edition draws on the breadth of expertise of the Worldwatch Institute s team of writers and researchers *State of the World* is relied upon by national governments UN agencies development workers and law makers for its authoritative and up to the minute analysis and information It is essential for anyone concerned with building a positive global future **Small Arms Survey 2015** Small Arms Survey,2015-07-30 The Small Arms Survey 2015 examines the role of weapons and armed violence in humanity s appropriation of the earth s wildlife and mineral riches in Africa where the poaching of elephants and rhinos is becoming increasingly militarised and near resource extraction sites around the world In addition to presenting updates on the UN small arms process and the top arms importers and exporters the volume assesses how recent technological developments affect weapons marking record keeping and tracing reviews small arms flows to

Governing Guns, Preventing Plunder Asif Efrat, 2012-07-19 From human trafficking to smuggling small arms to looting antiquities illicit trade poses significant threats to international order So why is it difficult to establish international cooperation against illicit trade Governing Guns Preventing Plunder offers a novel thought provoking answer to this crucial question Conventional wisdom holds that it is criminal groups that obstruct efforts to suppress illicit trade In contrast Asif Efrat explains how legitimate actors such as museums that acquire looted antiquities seek to hinder these regulatory efforts Yet such attempts to evade regulation fuel international political conflicts between governments that demand action against illicit trade and others that are reluctant to cooperate The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome Through this framework Efrat explains why the interests of governments vary across countries trades and time In a fascinating empirical analysis he solves a variety of puzzles Why is the international regulation of small arms much weaker than international drug control What led the United States and Britain to oppose the efforts against plunder of antiquities and why did they ultimately join these efforts How did American pressure motivate Israel to tackle sex trafficking Efrat's findings will change the way we think about illicit trade offering valuable insights for scholars activists and policymakers

No Refuge Robert Muggah, 2013-04-04 Africa's refugee and IDP camps are a cause of major concern to the international community Millions of men women and children endure situations of protracted displacement in deplorable conditions In the absence of more durable solutions refugees and IDPs in many situations are exceptionally susceptible to militarization No Refuge describes how the phenomenon of refugee militarization threatens to undermine asylum and protection This edited volume is a timely and invaluable resource for governments UNHCR protection officers UN agencies and NGOs It is a must read for all concerned with improving the safety and rights of refugees and IDPs on the ground António Guterres United Nations High Commissioner for Refugees No Refuge provides a timely analysis by a group of Africa experts of the causes and consequences of refugee militarization in Africa It should prove invaluable for practitioners policy makers and academics in their quest to find practical and effective remedies for this growing humanitarian and security problem I highly recommend it

Professor Gil Loescher Centre for International Studies University of Oxford The militarization of refugees and internally displaced persons IDPs is a persistent and tragic feature of protracted displacement situations especially in Africa The phenomenon threatens access to asylum and protection core pillars of refugee law and the mandates of aid agencies But

while policy debates rage over how best to disarm refugees and prevent them from destabilizing neighbouring states there is surprisingly little evidence explaining why displaced people arm themselves or precisely how militarization affects hosting communities No Refuge analyses the experience of refugee and IDP militarization in several African countries affected by and emerging from civil war including Guinea Rwanda Uganda and Tanzania It provides a considered overview of the historical political and regional dimensions of refugee and IDP militarization in Africa as well as international and national efforts to contain it

Weaponomics: the global market for assault rifles Phillip Killicoat, 2007 Abstract This paper introduces the first effort to quantitatively document the small arms market by collating field reports and journalist accounts to produce a cross country time series price index of Kalashnikov assault rifles A model of the small arms market is developed and empirically estimated to identify the key determinants of assault rifle prices Variables which proxy the effective height of trade barriers for illicit trade are consistently significant in determining weapon price variation When controlling for other factors the collapse of the Soviet Union does not have as large an impact on weapon prices as is generally believed
