Collins,2024-06-15 Since the year 2000 millions of hectares of land in the Global South have been acquired by foreign investors for large scale agricultural projects displacing and disrupting rural communities Women are especially disadvantaged by the global land grab they are less likely to inherit control or make decisions over land but often need land to support themselves their families and their communities While international organizations have developed global guidelines to improve land governance tensions still run high as the current policies fall short Gender and the Global Land Grab introduces a feminist conceptual framework to analyze land governance policy around the world Andrea Collins shows how gender norms biases and expectations shape land politics at different levels of governance Drawing on examples from sub Saharan Africa and with an in depth case study of land politics in Tanzania the book assesses guidelines developed by institutions such as the Food and Agriculture Organization of the United Nations and the World Bank to highlight essential considerations for developing and implementing gender sensitive policy Illustrating how gender shapes resource policy across all levels of political activity Gender and the Global Land Grab provides valuable tools for transforming global policymaking **Jewish Property Claims Against Arab Countries** Michael R. Fischbach,2008-08-26 In the twenty years that followed the Arab Israeli war of 1948 800 000 Jews left their homes in Syria Egypt Iraq Yemen Libya Morocco and several other Arab countries Although the causes of this exodus varied restrictive governmental measures and an outburst of anti Semitic feeling during and after the war were major factors Some of these Mizrahi Jews most of whom were not active Zionists were forced to leave behind property of great financial and ancestral value property that was sometimes seized by

the governments of the countries they fled In this book Michael R Fischbach who has dedicated years to studying land and property ownership in the context of the Arab Israeli conflict reconstructs the circumstances in which Jewish communities left the Arab world Conducting meticulous and exhaustive research in the archives of Washington D C Jerusalem London New York and elsewhere Fischbach offers the most authoritative estimates to date of the value of the property left behind He also describes the process by which various actors most importantly the State of Israel linked the resolution of Jewish property claims to the fate of Palestinian refugee property claims following the 1948 war Fischbach considers the implications of contemporary developments such as America s invasion of Iraq Israeli Palestinian negotiations and Libya s attempt to shed its international pariah status which have impacted pending claims and will affect claims in the future Overall he finds that many international Jewish organizations have supported the link between the claims of Mizrahi Jews and those of Palestinian refugees hindering serious efforts to obtain restitution or compensation
