Gulf crisis one year on

For Saudi-led coalition,
effort against Qatar
has yet to bear fruit,
other than Doha's cooperation
in cracking down on
funding of terrorism

HUSSAIN ABUL-HUSSAIN

The Gulf Crisis

Suzanne Murdico

The Gulf Crisis:

The Gulf War Suzanne Murdico, 2003-12-15 Examines events surrounding the 1991 war between Iraq and a worldwide coalition of forces plus biographical notes on important figures and a look at the effects of this war *The Gulf Crisis and its Global Aftermath* Gad Barzilai, Aharon Klieman, Gil Shidlo, 2016-02-05 The crisis in the Gulf of 1990 affected more than just the regional powers in the area. Rippling outward, its military, economic, and political effects were felt throughout the international political system, testing US steadfastness in the face of Saddam Hussein's political survival, European ability to form a united front on foreign policy issues, and the effectiveness of the UN in confronting international aggression. The rationale behind this book, first published in 1993, is to investigate and analyse the various aspects of the crisis, especially in regard to the interactions between internal and international prospects for a new order in the Middle East. It also examines the wider effects of the war and includes analysis of Europe, America, and the Soviet Union. Each one of the essays chosen for this volume has been written by an expert in their field. This collaboration between historians, regional specialists, and political scientists, integrating a variety of research methods in the framework of one book, will be useful to a wide range of readers.

Policy and Opinion in the Gulf War John Mueller, 1994-07 The Persian Gulf crisis may well have been the most extensively polled episode in US history, as President Bush, his opponents, and even Saddam Hussein appealed to and tried to influence public opinion. As well documented as this phenomenon was, it remains largely unexplained. John Mueller provides an account of the complex relationship between American policy and public opinion during the Gulf crisis. Mueller analyzes key issues: the actual shallowness of public support for war; the effect of public opinion on the media rather than the other way around; the use and misuse of polls by policy makers; the American popular focus on Hussein's ouster as a central purpose of the War; and the War's short-lived impact on voting. Of particular interest is Mueller's conclusion that Bush succeeded in leading the country to war by increasingly convincing the public that it was inevitable rather than right or wise. Throughout, Mueller, author of *War, Presidents, and Public Opinion*, an analysis of public opinion during the Korean and Vietnam wars, places this analysis of the Gulf crisis in a broad political and military context, making comparisons to wars in Panama, Vietnam, Korea, and the Falklands, as well as to World War II and even the War of 1812. The book also collects nearly 300 tables charting public opinion through the Gulf crisis, making *Policy and Opinion in the Gulf War* an essential reference for anyone interested in recent American politics, foreign policy, public opinion, and survey research. **The Gulf Crisis** Ibrahim Ibrahim, 1992

The Persian Gulf Crisis Steve A. Yetiv, 1997-08-26 Ideal for student research, this book provides a reference guide to the war as well as seven essays analyzing a variety of aspects of the war and its consequences. The essays address questions such as: How did Saddam Hussein become such a major threat, and how has he survived the war? How critical was George Bush in driving US and global foreign policy during the crisis? How were key decisions made? Did the war fail or succeed in retrospect? What were its long-run political, economic, strategic, and cultural effects? Can collective security work? Is the United Nations

likely to be effective in future crises What lessons can be learned from the crisis Yetiv draws on primary documents and extensive interviews with many key players such as Colin Powell James Baker and Brent Scowcroft and Arab and European leaders which cast new light on the event Following a list of key players and a complete chronology of events seven essays offer a contemporary perspective on the war Drama in the Desert War Erupts in a Storm The Continuation of Diplomacy by Air and on the Ground From Truman to Desert Storm The Rising Eagle in the Persian Gulf President Bush and Saddam Hussein A Classic Case of Individuals Driving History The West Arms a Brutal Dictator Can Proliferation Be Controlled in the Post Cold War World The United Nations and Collective Security Was the Gulf War a Model for the Future The Impact of the Persian Gulf War Reference components include a narrative historical overview of the war and biographical profiles of each of the major players in the war Twelve primary documents include speeches and UN resolutions A glossary of terms particular to the war and an annotated bibliography complete the work A selection of photos complements the text This readable guide is a one stop source for reference material and in depth analysis of the key foreign policy event of the 1990s and should appeal to a broad readership The Complete Idiot's Guide to the Gulf War Charles Jaco,2002 Discusses the causes military tactics battles and effects of the Persian Gulf War **Saddam Speaks on the Gulf Crisis** Saddam Hussein,Ofra Bengio,1992 This book presents the Gulf crisis from two different angles the onlooker s and the player s an analysis of the motivations in the war and a selection of the speeches of its main protagonist President Saddam Husayn

The Persian Gulf Crisis Robert Helms,Robert H. Dorff,1993 This book examines the implications of the Persian Gulf crisis in order to enhance our understanding of the post Cold War international system More than just another analysis of the Iraqi invasion of Kuwait and the subsequent war the book looks at the more general aspects of the use of force political economic and military evident in the Gulf crisis and what they can tell us about the emerging post Cold War system Contributors were selected on the basis of their ability to address specific questions and policy issues and to cast their analyses at a broadly theoretical level Each chapter looks at a different aspect of conflict in the international system and how that relates to the Persian Gulf crisis Several aspects of the crisis and the new international system are examined such as the role of the United Nations the utility of economic sanctions the historical origin of the crisis itself the potential sources of conflict and responses to it and the changing nature of the use of military force To the extent that the lessons found contradict the common wisdoms that emerged in the immediate aftermath of the war many of the chapters challenge the trend to find sweeping generalizations in the Gulf crisis that bear directly on international relations in the 1990s and beyond Civilian and military policymakers as well as students and teachers of international studies will find this book of interest

Desert Storm Michael J. Mazarr,2019-04-01 From Saddam Hussein s first bold threats in 1990 to the stunning ground phase of Desert Storm in early 1991 the crisis in the Gulf captured the world s attention This high tech low cost war was televised nightly from beginning to end accompanied by on the spot interpretations of strategy and its implications But what

did we learn from this crisis Did the United States bungle its attempts at discouraging Saddam s aggressive actions or is deterrence simply not a reliable foreign policy tool Are chemical weapons truly the poor man s atom bomb Does the war represent a good model for future crises or did circumstances make this war more of an anomaly than a precedent How did the ill volunteer U S force perform By combining exciting detailed vignettes of the crisis with insightful discussions of its consequences this book opens up an informed debate concerning the true military and geopolitical lessons of the conflict Representing a distillation of the best thinking on defense and foreign policy in Washington Desert Storm also incorporates the testimony of the inside players during the crisis the people who actually planned and fought the war Combining academic rigor and in depth military expertise the authors challenge the complacency of the emerging conventional wisdom regarding the conflict taking us beyond mere chronicling and instant analysis to a riveting reenactment of the war and the serious consideration of its long term implications *Seven Months to Freedom* Howard Cincotta,1991
