Music as Theology Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to

engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney s ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword

Medieval Music, Magical Minds Mary Devlin, 2001-05-31 MEDIEVAL MUSIC MAGICAL MINDS It has only been since the Age of Reason that human beings consider music to be strictly an aesthetic experience Up until that time however music was both intended and designed to have a specific effect upon the mind and emotions of the listener Religious chant was designed to raise consciousness Dance music was meant to celebrate fertility both human and that of the Earth and to bring earthly joy and ecstasy to those both dancing and listening This groundbreaking book fulfills two purposes The first is to introduce interested musicians to the increasingly popular field of medieval music The second is to trace the history of all music as well as its effect upon the level of awareness of the listeners Internationally noted soprano Mary Devlin a great lover of medieval music expounds upon both her studies and her experience with that genre to try to recreate the thoughts and feelings of the people in the Middle Ages who once composed performed and lived that music
