This Compost Jed Rasula, 2012-09-01 Poetry for Jed Rasula bears traces of our entanglement with our surroundings and these traces define a collective voice in modern poetry independent of the more specific influences and backgrounds of the poets themselves In This Compost Rasula surveys both the convictions asserted by American poets and the poetics they develop in their craft all with an eye toward an emerging ecological worldview Rasula begins by examining poets associated with Black Mountain College in the 1950s Charles Olson Robert Creeley and Robert Duncan and their successors But This Compost extends to include earlier poets like Robinson Jeffers Ezra Pound Louis Zukofsky Kenneth Rexroth and Muriel Rukeyser as well as Clayton Eshleman Gary Snyder Michael McClure and other contemporary poets Walt Whitman and Emily Dickinson also make appearances Rasula draws this diverse group of poets together uncovering how the past is a compost fertilizing the present He looks at the heritage of ancient lore and the legacy of modern history and colonial violence as factors contributing to ecological imperatives in modern poetry This Compost restores the dialogue between poetic language and the geophysical biological realm of nature that so much postmodern discourse has sought to silence It is a fully developed carefully argued book that deals with an underrepresented element in modern American culture where the natural world and those who write about it have been greatly neglected in contemporary literary history and theory Charles Olson's Reading Ralph Maud, 1996 In this narrative account of the life and work of Charles Olson Ralph Maud focuses on what the poet read as a basis for understanding the work he produced To an extraordinary degree Olson s reading and life were coextensive according to Maud who notes that Olson saw his written output over his lifetime as a total cosmology An individual who rarely traveled this major American poet explored the world and its history as well as the furthest reaches of the thought of his day through books Maud builds upon George Butterick s annotated listing of Olson s library bought by the University of Connecticut after the poet s death in 1970 The present volume however adds categories of books Butterick deliberately omitted Olson s childhood books and poetry by his own contemporaries Linking Olson s books to his intellectual and poetic development at each stage of his career Maud reveals such little known but important connections as the contracted book project Operation Red White and Black and Olson s plan for the long poem West two unrealized projects

much later shaped into *The Maximus Poems* Maud also outlines the surprisingly multiple role of the painter Corrado Cagli who brought home to Olson the significance of the Holocaust and introduced him both to the Tarot and to the theories of non Euclidean geometry that Olson variously incorporated into his poems and essays In discussing Olson's relationship to Ezra Pound Maud defines in some detail what Olson gained from Pound and what he repudiated Maud refutes the notion that Olson's intellectual and creative powers declined during the last years of his life demonstrating that during these years Olson developed his Jungian interest his attention to early Greek thought and a new concern for Northern mythology This chronicle of Olson's reading from childhood to deathbed constitutes a critical biography of the larger than life author of *Call Me Ishmael* and *The Maximus Poems* No modern poet is more revealed in his sources than Olson Maud's comprehensive and complete study provides a basis for new and fresh modes of thinking about Olson's great achievement

Contextual Practice Stephen Fredman, 2010 Fredman makes the original argument that some of the most innovative works of poetry and art in the postwar period 1945-1970 engaged in a contextual practice a term that refers both to a way of making art characterized by assemblage and to a new relationship between art and life an erotic poetics *Never by Itself Alone* David Grundy, 2024 Through its comprehensive history of post war queer writing in Boston and San Francisco from the 1940s through the 21st century *Never By Itself Alone* provides a new view of queer history Grundy intertwines analysis of lesbian gay and queer literature of the time centering voices which have not yet before been explored in existing criticism The book elevates the underrepresented work of writers of color and those with gender nonconforming identities underscores the link between activism and literature and insists upon the vital importance of radical accounts of race class and gender in any queer studies worthy of the name
