The Kenya Pioneers:

The Kenya Pioneers Errol Trzebinski,1985 **Madness and marginality** Will Jackson,2017-03-01 Based on over two hundred and fifty psychiatric case files this book offers a radical new departure from existing historical accounts of what is still commonly thought of as the most picturesque of Britain's colonies overseas By tracing the life histories of Kenya's white insane the book allows for a new account of settler society one that moves attention away from the great white hunters and heroic pioneer farmers to all those Europeans who did not manage to emulate the colonial ideal In doing so it raises important new questions around deviance transgression and social control Sitting at the intersection of a number of fields the book will appeal to students and teachers of imperial history colonial medicine African history and postcolonial theory and will prove a valuable addition to both undergraduate and postgraduate courses **Imperial Reckoning** Caroline Elkins,2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America's own imperial project Imperial Reckoning is the winner of the 2006 Pulitzer Prize for Nonfiction **Information Resources and Technology Transfer Management in Developing Countries** Richard Ouma-Onyango,1997 This book attempts to put information management in the context of technology transfer industrialization and national development The author shows how critical the efficient use of information resources can be in terms of productivity He also examines the costs of poor information management in undermining negotiation the preparation of contingencies and the ability to let go of dead projects To this end case studies of two technology transfer projects in Kenya the National Power Alcohol and National Car Programme are considered over a period of twenty years **Labor in Colonial Kenya after the Forced Labor Convention, 1930-1963** Opolot Okia,2019-08-23 This book advances research into the government forced labor used widely in colonial Kenya from 1930 to 1963 after the passage of the International Labor Organization's Forced Labour Convention While the 1930 Convention intended to mark the suppression of forced labor practices various exemptions meant that many coercive labor practices continued in colonial territories Focusing on East Africa and the Kenya Colony this book shows how

the colonial administration was able to exploit the exemption clause for communal labor thus ensuring the mobilization of African labor for infrastructure development As an exemption communal labor was not defined as forced labor but instead justified as a continuation of traditional African and community labor practices Despite this ideological justification the book shows that communal labor was indeed an intensification of coercive labor practices and one that penalized Africans for non compliance with fines or imprisonment The use of forced labor before and after the passage of the Convention is examined with a focus on its use during World War II as well as in efforts to combat soil erosion in the rural African reserve areas in Kenya The exploitation of female labor the Mau Mau war of the 1950s civilian protests and the regeneration of communal labor as harambee after independence are also discussed

The New A-Z of Empire C. Brad Faught, 2011-05-30 The British Empire especially in its late Victorian heyday spanned the world and linked a quarter of world s population to Britain through a shared official allegiance to the Crown In the long history of empires the British imperial state was among the most powerful ever and a major global player A New A Z of Empire catches the current burgeoning interest in empires and covers over 400 years of British imperial history from the founding of the East India Company in 1600 to the First and Second British Empires the time of High Empire following the War of American Independence the unprecedented expansion of the Scramble for Africa the development of Dominion Status and the history often turbulent of decolonization and the growth of Commonwealth The 400 plus entries include a rich panoply of individuals territories treaties politics the law diplomacy war and peace administration business and commerce exploration literature art literature and scholarship Readers will find a mine of fascinating factual information in concise form with expert historical assessment cross referencing between entries and suggestions for further reading The valuable time line is essential to pick through the long period of complex history and links to key web resources are provided A New A Z of Empire is an indispensable tool for the scholar and student and for the general reader interested in the rich history of the British Empire a story of obscure foundation leading to dominance over a huge swathe of the globe now represented by mere pinpricks on the world map

The Demographics of Empire Karl Ittmann, Dennis D. Cordell, Gregory H. Maddox, 2010-10-05 The Demographics of Empire is a collection of essays examining the multifaceted nature of the colonial science of demography in the last two centuries The contributing scholars of Africa and the British and French empires focus on three questions How have historians demographers and other social scientists understood colonial populations What were the demographic realities of African societies and how did they affect colonial systems of power Finally how did demographic theories developed in Europe shape policies and administrative structures in the colonies The essays approach the subject as either broad analyses of major demographic questions in Africa s history or focused case studies that demonstrate how particular historical circumstances in individual African societies contributed to differing levels of fertility mortality and migration Together the contributors to The Demographics of Empire question demographic orthodoxy and in particular the assumption that African societies in the past exhibited a single demographic

regime characterized by high fertility and high mortality **Nine Faces Of Kenya** Elspeth Huxley, 2011-06-30 In this marvelous anthology Elspeth Huxley our best and most popular writer on Africa has drawn on her unparalleled knowledge of Kenya and its literature to present a fully rounded portrait of one of the most fascinating countries in the world In nine sections focusing on exploration travel settlement war hunting wildlife environment life styles and legend and poetry using only first hand accounts she guides the reader through the story of Kenya from AD100 to the present with her characteristic candour and directness *The Crown Colonist* ,1939 Matatu Kenda Mutongi, 2017-06-26 This prize winning study takes a unique ethnographic approach to reconstructing the history of Nairobi s privately owned urban transport Martin A Klein Prize Committee American Historical Association Drive the streets of Nairobi and you are sure to see many matatus colorful minibuses that transport huge numbers of people around the city Once ramshackle affairs held together with duct tape matatus today are name brand vehicles maxed out with aftermarket detailing They can be stately black or extravagantly colored sporting names slogans and airbrushed portraits of everyone from Kanye West to Barack Obama In this richly interdisciplinary book Kenda Mutongi explores the history of the matatu from the 1960s to the present As Mutongi shows matatus offer a window onto the socioeconomic and political conditions of late twentieth century Africa In their diversity of idiosyncratic designs they reflect divergent aspects of Kenyan life from rapid urbanization and the transition to democracy to organized crime entrepreneurship social insecurity and popular culture Offering a shining model of interdisciplinary analysis Mutongi mixes historical ethnographic literary linguistic and economic approaches to tell the story of the matatu and explore the entrepreneurial aesthetics of the postcolonial world
