**Movement** Nicole Gelinas, 2024-11-05 A gripping account of how the automobile has failed NYC and how mass transit and a revitalized streetscape are vital to its post pandemic recovery In 1969 as all students of New York City history think they have learned master builder Robert Moses lost his long battle to urbanist Jane Jacobs over his planned Lower Manhattan Expressway The ten lane elevated expressway would have sliced across SoHo and Little Italy demolishing historic buildings and displacing thousands of families and businesses Jacobs and her neighbors defeated Moses and as a result New York became the only major American city with no interstate highway running through its core Like many global cities though New York had spent fifty years during the first half of the twentieth century trying and failing to tame its heavily populated landscape to fit the private automobile New York has now spent more than fifty years trying to undo those mistakes wresting back city space for people not cars Movement New York's Long War to Take Back Its Streets from the Car chronicles the earlier less known battles that preceded the cancellation of the Lower Manhattan Expressway Jacobs became an example for generations of urban planners but whose example did Jacobs emulate in an earlier victory that saved Washington Square Park Moses may serve handily as New York's uber villain now but who before him was responsible for destroying a critical part of New York's transit system A well respected urban writer who has focused on New York's transportation system for more than a decade author Nicole Gelinas resumes the story where Robert Caro's landmark The Power Broker ended Movement explores how in the half century leading up to the COVID 19 pandemic New York's re embracement of its mass transit system and a livable streetscape helped save the city Gelinas tackles the 1970s environmental movement the 1980s rebuilding of the subways and more contemporary battles from Mayor Bloomberg's push for more pedestrian plazas and bike lanes in the early 2000s to transportation advocates protests to prevent traffic deaths in the Mayor de Blasio era of the 2010s to how New York's stewardship of its streets and subways have played a critical role during the 2020 pandemic and subsequent recovery Introducing a cast of transportation heroes to rival Jane Jacobs Shirley Hayes Hazel Henderson Richard Ravitch Nilka Martell and puncturing the myth of Moses as New York's anti hero Movement explores how New York City has helped redefine what it means to be a global city not a place that is easy to drive through but a place where people can take transit walk and bike to work to school or just for fun

**Bucks County Trolleys** Mike Szilagyi, 2020-10-26 Bucks County Pennsylvania was once served by 120 miles of trolley lines During the decades spanning the 1890s to 1950s a variety of trolley cars glided through Bucks County's towns and countryside beginning with Langhorne's quaint open streetcars and culminating with streamlined interurbans streaking across open fields from Sellersville to Quakertown at 80 miles per hour The trolleys were powered by electricity with the line stretching north from Doylestown energized by renewable hydroelectric power generated by the Delaware Canal Before automobiles and trucks were commonplace and before roads were paved the rapid convenient electric trolley was the best mode of travel for both

passengers and freight shipments Although the trolleys have almost completely disappeared today the photographs on these pages provide rare glimpses of a long lost mode of travel and charming scenes of Bucks County s soon to be altered landscapes

The Northern Bank Job Glenn Patterson,2025-05-08 The true story of one of the biggest bank heists in Irish and British history and the questions that remain On a Sunday evening in December 2004 two young men were at home with their families Both worked for the Northern Bank s cash centre in Belfast They heard knocks on their front doors Within a few minutes masked men invaded their homes overpowered their loved ones and disabled their electronic devices It was made clear to the two bank officials that they had a choice do what they were told or their families would die Over the course of the following day 26 5 million was stolen from the Northern Bank the biggest cash heist in Irish and British history The two men whose families were held hostage simply re labelled vast amounts of cash as rubbish and wheeled huge bags to a van waiting outside in the street yards from Belfast s City Hall The robbers knowledge of the inner workings of the bank was astonishing They deployed a large crew of drivers guards watchers and gunmen It was immediately obvious that only one organization had the ability to plan and execute such an audacious minutely planned robbery the Irish Republican Army But the IRA was supposed to be demobilized as a result of the Good Friday Peace Agreement signed six years earlier The leaders of Sinn F in who were also leaders of the IRA vehemently denied they had anything to do with it No one believed them The governments in London Dublin and Washington were outraged Yet no one was ever been convicted of any crime relating to the heist and little more than two years later Sinn F in was in government in Northern Ireland In the wake of the twentieth anniversary of this bizarre robbery Glenn Patterson builds on his popular BBC podcast to shed new light on the story of the infamous heist the victims the organizers and the abortive at times comically inept attempts to find the people who carried it out
