Material Aspects of Letter Writing in the Graeco-Roman World Antonia Sarri, 2017-11-20 Letter writing was widespread in the Graeco Roman world as indicated by the large number of surviving letters and their extensive coverage of all social categories Despite a large amount of work that has been done on the topic of ancient epistolography material and formatting conventions have remained underexplored mainly due to the difficulty of accessing images of letters in the past Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions we are now in a position to study such aspects This book examines the development of letter writing conventions from the archaic to Roman times and is based on a wide corpus of letters that survive on their original material substrates The bulk of the material is from Egypt but the study takes account of comparative evidence from other regions of the Graeco Roman world Through analysis of developments in the use of letters

variations in formatting conventions layout and authentication patterns according to the sociocultural background and communicational needs of writers this book sheds light on changing trends in epistolary practice in Graeco Roman society over a period of roughly eight hundred years This book will appeal to scholars of Epistolography Papyrology Palaeography Classics Cultural History of the Graeco Roman World *Catalogue of the Coins of Alexandria and the Nomes* British Museum. Department of Coins and Medals,Reginald Stuart Poole,1892 *A Companion to Greco-Roman and Late Antique Egypt* Katelijn Vandorpe,2019-03-19 An authoritative and multidisciplinary Companion to Egypt during the Greco Roman and Late Antique period With contributions from noted authorities in the field A Companion to Greco Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642 when Arab rule started in the Nile country The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt s inhabitants clearly illustrate this objective The authors put the emphasis on the changes that occurred in the Greco Roman and Late Antique periods as illustrated by such topics as Traditional religious life challenged Governing a country with a past between tradition and innovation and Creative minds in theory and praxis This important resource Discusses how Egypt became part of a globalizing world in Hellenistic Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue dur e development Offers a thematic and multidisciplinary approach to the subject bringing together scholars of different disciplines Contains life portraits in which various aspects and themes of people s daily life in Egypt are discussed Written for academics and students of the Greco Roman and Late Antique Egypt period this Companion offers a guide that is useful for students in the areas of Hellenistic Roman Byzantine and New Testament studies **Land and Power in Ptolemaic Egypt** Joseph Gilbert Manning,2003-05-29 This history of land tenure under the Ptolemies explores the relationship between the new Ptolemaic state and the ancient traditions of landholding and tenure Departing from the traditional emphasis on the Fayyum it offers a coherent framework for understanding the structure of the Ptolemaic state and thus of the economy as a whole Drawing for the first time on both Greek and demotic papyri as well as hieroglyphic inscriptions and theories taken from the social sciences Professor Manning argues that the traditional central state despotic model of the Egyptian economy is insufficient The result is a subtler picture of the complex relationship between the demands of the new state and the ancient locally organized social structure of Egypt By revealing the dynamics between central and local power in Egypt the book shows that Ptolemaic economic power ultimately shaped Roman Egyptian social and economic institutions Ptolemy the second Philadelphus and his world Paul R. McKechnie,Philippe Guillaume,2008 Ptolemy II Philadelphus second Macedonian king of Egypt 282 246BC captured intellectual high ground by founding the Alexandrian Library and Museum and cemented celebrity status by bankrolling his courtesans endeavours in Olympic chariot
