The Killing Times:

Flower o' the Heather A Story of the Killing Times Robert William MacKenna, 2024-01-03 *Flower o' the Heather A Story of the Killing Times* by Robert William MacKenna is a gripping historical fiction novel that delves into the tumultuous era of the Covenanters in Scotland. Set against the backdrop of rebellion and religious persecution, the book follows the harrowing journey of the Covenanters as they bravely resist oppression in their quest for religious freedom. MacKenna masterfully captures the spirit of resistance and faith as the Covenanters face relentless persecution and martyrdom at the hands of their oppressors. Against all odds, they stand firm in their beliefs, symbolizing the enduring struggle for religious liberty in the face of tyranny. Through vivid storytelling and meticulous historical detail, MacKenna brings to life the turbulent events of the Killing Times, painting a vivid picture of the Highland landscape and the brave souls who fought for their convictions. As the Covenanters navigate the treacherous terrain of revolution and struggle, their courage and resilience shine through, inspiring readers with their unwavering commitment to their cause. *Flower o' the Heather* is a poignant tribute to the indomitable spirit of the Covenanters, whose bravery and sacrifice continue to resonate through the ages. The Killing Time Paul

Lederer, 2014-06-10 An out of work lawman rides into the hills in search of a runaway killer. Before he draws his gun, Tom Dyce waits for John Bass to shoot first. He plugs the killer in the stomach but doesn't fire again. A marshal's deputy, Tom has never killed a man in cold blood at least not yet. The confrontation with Bass sours Tom on working for the marshal. Needing a change, he decides to return home to Thibido and the woman he loved long ago, Aurora Tyne. Before he leaves Rincon, the marshal offers him one last assignment: tracking a fugitive bank robber who has fled into the hills outside of Tom's hometown. Though he wants nothing to do with bounty hunting, the reward isn't the only thing that draws him to the chase. Aurora's life is in danger, and saving her may require murder.

Killing Times David Wills, 2019-03-05 *Killing Times* begins with the deceptively simple observation made by Jacques Derrida in his seminars on the topic that the death penalty mechanically interrupts mortal time by preempting the typical mortal experience of not knowing at what precise moment we will die. Through a broader examination of what constitutes mortal temporality, David Wills proposes that the so-called machinery of death summoned by the death penalty works by exploiting or perverting the machinery of time that is already attached to human existence. Time Wills argues functions for us in general as a prosthetic technology, but the application of the death penalty represents a new level of prosthetic intervention into what constitutes the human. *Killing Times* traces the logic of the death penalty across a range of sites. Starting with the legal cases whereby American courts have struggled to articulate what methods of execution constitute cruel and unusual punishment, Wills goes on to show the ways that technologies of death have themselves evolved in conjunction with ideas of cruelty and instantaneity from the development of the guillotine and the trap door for hanging through the firing squad and the electric chair through today's controversies surrounding lethal injection. Responding to the legal system's repeated recourse to storytelling, prosecutors and politicians endlessly recounting of

the horrors of crimes Wills gives a careful eye to the narrative even fictive spaces that surround crime and punishment Many of the controversies surrounding capital punishment Wills argues revolve around the complex temporality of the death penalty how its instant works in conjunction with forms of suspension or extension of time how its seeming correlation between egregious crime and painless execution is complicated by a number of different discourses By pinpointing the temporal technology that marks the death penalty Wills is able to show capital punishment s expansive reach tracing the ways it has come to govern not only executions within the judicial system but also the opposed but linked categories of the suicide bombing and drone warfare In discussing the temporal technology of death Wills elaborates the workings both of the terrorist who produces a simultaneity of crime and punishment that bypasses judicial process and of the security state in whose remote control killings the time space coordinates of justice are compressed and at the same time disappear into the black hole of secrecy Grounded in a deep ethical and political commitment to death penalty abolition Wills s engaging and powerfully argued book pushes the question of capital punishment beyond the confines of legal argument to show how the technology of capital punishment defines and appropriates the instant of death and reconfigures the whole of human mortality

Whispering in Our Hearts Revisited Henry Reynolds,2018-08-01 How is it our minds are not satisfied What means this whispering in the bottom of our hearts Listening to the whispering in his own heart Henry Reynolds was led into the lives of remarkable and largely forgotten white humanitarians who followed their consciences and challenged the prevailing attitudes to Indigenous people His now classic book *The Whispering in Our Hearts* constructed an alternative history of Australia through the eyes of those who felt disquiet and disgust at the brutality of dispossession These men and women fought for justice for Indigenous people even when doing so left them isolated and criticised by their fellow whites The unease of these humanitarians about the morality of white settlement has not dissipated and their legacy informs current debates about reconciliation between black and white Australia Revisiting this history in this new edition Reynolds brings fresh perspectives to issues we grapple with still Those who argue for justice reparation recognition and a treaty will find themselves in solidarity with those who went before But this powerful book shows how much remains to be done to settle the whispering in our hearts No other historian can match Henry Reynolds impact on Australians understanding of their frontier history and its troubled inheritance Mark McKenna
