and the New York Times Bestseller List have contributed to his wide readership and successful dismantling of Hollywood stereotypes that still dog the region in the nation's larger consciousness. His writing makes a case for the dignity of work, the beauty and terror of the landscape, and the essential value of creating a community and learning to live in the world. The interviews in *Conversations with Robert Morgan* provide readers and scholars the first stand-alone book on Morgan's long and fascinating career as a master of multiple genres and make a significant contribution to the understanding of American southern and Appalachian literature and culture. Collected here are five decades of interviews that cover such topics as literary influence, the impact of war on family and community, poetic and narrative craft, the role of environmentalism in American literature, and the journey from impoverished North Carolina mountain boy to award-winning Ivy League professor. Morgan is Kappa Alpha Professor of English at Cornell University where he has taught since 1971. Readers will learn about writing across multiple genres, craft that can be learned and practiced by a writer, and studying the past for those present truths that create what Morgan values most in literature: a community across time.
