The Land Question In Palestine 1917 1939:

The Land Question in Palestine, 1917-1939 Kenneth W. Stein, 2017-03-01 The control of land remains the crucial issue in the Arab Israel conflict Kenneth Stein investigates in detail and without polemics how and why Jews acquired land from Arabs in Palestine during the British Mandate and he reaches conclusions that are challenging and surprising Stein contends that Zionists were able to purchase the core of a national territory in Palestine during this period for three reasons they had the single mindedness of purpose as well as the capital to buy the land the Arabs economically impoverished politically fragmented and socially atomized were willing to sell the land and the British were largely ineffective in regulating land sales and protecting Arab tenants Neither Arab opposition to land sales nor British attempts to regulate them actually limited land acquisition There were always more Arab offers to sell land than there were Zionist funds In fact many sales were made by Arab politicians who publicly opposed Zionism and even led agitation against land acquisition by Jews Zionists furthered their own ambitions by skillfully using their understanding of the bureaucracy to write laws and to influence key administrative appointments Further they knew how to take advantage of social and economic cleavages within Arab society Based primarily on archival research *The Land Question in Palestine 1917 1939* offers an unusually balanced analysis of the social and political history of land sales in Palestine during this critical period It provides exceptional and essential insight into one of the most troubling conflicts in today's world *The Land Question in Palestine, 1917-1939* Kenneth W. Stein,

Zionism and Land Tenure in Mandate Palestine Aida Essaid, 2013-12-04 A fundamental aspect of the conflict between Palestinians and Israelis is the territorial dispute which began long before the State of Israel was established Analysing the land tenure system in Palestine under the administration of the British Mandate this book questions whether and to what extent the land tenure system in Palestine facilitated Zionist land acquisition The research uses benchmarks elaborated in the guidelines of the United Nations Human Settlements Programme as its analytical starting point and looks at the formation and implementation of the land tenure system in Palestine It goes on to place the penetration of Zionism into the land tenure system within the theoretical context of a colonial settler framework employing information from land registry records located at the Jordanian Department of Lands Providing a political historical analysis of the land tenure system from the end of Ottoman Rule until the end of the British Mandate this book will be of interest to scholars and students of Middle Eastern History Imperial and Colonial History and Middle Eastern Politics **The British Mandate in Palestine** Michael J Cohen, 2020-02-18 The British Mandate over Palestine began just 100 years ago in July 1920 when Sir Herbert Samuel the first British High Commissioner to Palestine took his seat at Government House Jerusalem The chapters here analyse a wide cross section of the conflicting issues social political and strategical that attended British colonial rule over the country from 1920 to 1948 This anthology contains contributions by several of the most respected Israeli scholars in the field Arab Druze and Jewish It is divided into three sections covering the differing perspectives of the main actors in the

Palestine Triangle the British the Arabs and the Zionists The concluding chapter identifies a pattern of seven counterproductive negotiating behaviours that explain the repeated failure of the parties to agree upon any of the proposals for an Arab Zionist peace in Mandated Palestine The volume is a modern review of the British Mandate in Palestine from different perspectives which makes it a valuable addition to the field It is a key resource for students and scholars interested in international relations history of the Middle East Palestine and Israel

The Palestinian Peasant Economy Under the Mandate Amos Nadan,2006 Challenging the claim that Palestine s peasant economy progressed during the 1920s and 1930s Amos Nadan skillfully integrates a wide variety of sources to demonstrate that the period was actually one of deterioration on both the macro per capita and micro levels The economy would have most likely continued its downward spiral during the 1940s had it not been for the temporary prosperity that resulted from World War II Nadan argues that this deterioration continued despite the British authorities channeling of funds from the Jewish sector and the wealthier Arab sectors into projects for the Arab rural economy The British were hoping that Palestine s peasants would not rebel if their economic conditions improved These programs were on the whole defective because the British chose programs based on an assumption that the peasants were too ignorant to manage their farms wisely instead of working with the peasants and their own institutions

The Problems of Genocide A. Dirk Moses,2021-02-04 Genocide is not only a problem of mass death but also of how as a relatively new idea and law it organizes and distorts thinking about civilian destruction Taking the normative perspective of civilian immunity from military attack A Dirk Moses argues that the implicit hierarchy of international criminal law atop which sits genocide as the crime of crimes blinds us to other types of humanly caused civilian death like bombing cities and the collateral damage of missile and drone strikes Talk of genocide then can function ideologically to detract from systematic violence against civilians perpetrated by governments of all types The Problems of Genocide contends that this violence is the consequence of permanent security imperatives the striving of states and armed groups seeking to found states to make themselves invulnerable to threats
