Last Men Out Bob Drury, Tom Clavin, 2011-05-03 A thrilling narrative of bravery bravado and loss Kirkus Reviews that tells the gripping story of a handful of marines who formed the last body of Americans to leave Saigon on April 30 1975

Booklist In a gripping moment by moment narrative based on a wealth of recently declassified documents and in depth interviews Bob Drury and Tom Clavin tell the remarkable drama that unfolded over the final heroic hours of the Vietnam War This closing chapter of the war would become the largest scale evacuation ever carried out as improvised by a small unit of Marines a vast fleet of helicopter pilots flying nonstop missions beyond regulation and a Marine general who vowed to arrest any officer who ordered his choppers grounded while his men were still on the ground Drury and Clavin focus on the story of the eleven young Marines who were the last men to leave rescued from the U S Embassy roof just moments before capture having voted to make an Alamo like last stand As politicians in Washington struggled to put the best face on disaster and the American ambassador refused to acknowledge that the end had come these courageous men held their ground and helped save thousands of lives Drury and Clavin deliver a taut and stirring account of a turning point in American history that unfolds with the heart stopping urgency of the best thrillers a riveting true story finally told in full by those who lived it

The Last Man Out of China Ben Hansen,1990-04-01 [The Asian Financial Crisis 1995-98](#) Russell Napier,2021-07-20
In the space of a few months across Asia a miracle became a nightmare This was the Asian Financial Crisis of 1995 98 In this economic crisis hundreds of people died in rioting political strong men were removed and hundreds of billions of dollars were lost by investors This crisis saw the US dollar value of some Asian stock markets decline by ninety percent Why did almost no one see it coming The Asian Financial Crisis 1995 98 charts Russell Napier s personal journey during that crisis as he wrote daily for institutional investors about an increasingly uncertain future Relying on contemporaneous commentary it charts the mistakes and successes of investors in the battle for investment survival in Asia from 1995 98 This is not just a guide for investors navigating financial markets but also an explanation of how this crisis created the foundations of an age of debt that has changed the modern world **Mission to Yenan** Carolle J. Carter,2021-05-11 A deep dive into the Dixie Mission Aficionados of American political and diplomatic history may be pleasantly surprised at the riches in this book American Historical Review Conventional wisdom informs us that only Nixon could go to China In fact in 1944 nearly thirty years before his historic trip the American military established the first liaison and intelligence gathering mission with the Chinese Communists in Yenan Commonly referred to as the Dixie Mission the detached military unit sent to Yenan was responsible for transmitting weather information assisting the Communists in their rescue of downed American flyers and laying the groundwork for an eventual rapprochement between the Communists and Nationalists the two sides struggling in the ongoing Chinese Civil War Following extensive use of archival sources and numerous interviews with the men who traveled and served in Yenan Carolle Carter argues that while Dixie fulfilled its assignment the members steered the mission in different directions from its original albeit loosely described intent As the months and years passed the Dixie Mission increasingly emphasized intelligence gathering over evaluating their Communist hosts contribution to the war effort against Japan Some American politicians in the 1950s portrayed the participants in the Dixie Mission as too sympathetic to the

Chinese Communists But during the 1970s many looked back at these individuals as wise but ignored oracles who could have prevented the loss of China Carter strips away these simplistic portrayals to reveal a diverse and dedicated collection of soldiers diplomats and technicians who had ongoing contact with the Chinese Communists longer than any other group during World War II but who were destined to be a largely unused resource during the Cold War The Ghost War Alex Berenson, 2008 Returning to Washington after a harrowing case in the Middle East CIA agent and al Qaeda infiltrator John Wells is selected to investigate a surge in Taliban activity with possible Asian ties By the author of *The Faithful Spy* 150 000 first printing *China's Foreign Relations since 1949* Alan Lawrance, 2013-11-05 First published in 1975 This volume presents the documentary evidence for understanding the evolution of China's foreign relations since the inauguration of the People's Republic in 1949 Over seventy documentary extracts cover the years 1949-1947 They include selections from statements and reports conference resolutions the speeches of Mao Tse-tung Chou En-lai and other Chinese leaders and editorials from *People's Daily* and *Red Flag* Western commentators such as Edgar Snow and Neal Ascherson are also represented however most of the material is from Chinese sources Particular attention is given to Sino-American relations The Sino-Soviet rift The development of Peking's strategy towards Asia Africa and Western Europe *China's India War, 1962: Looking Back to See the Future* Air Commodore Jasjit Singh, 2013-03-15 A potential competition exists between India and China and there is also no doubt that China started the war Highlighting the mistakes made by India rather than empirically analysing the available data can be regarded as the primary causes for the confusion that exists today Though complete details and evidence of the developments are available and documented few of us have attempted to draw up a pragmatic and realist analysis The consequences of that war have yet to die down entirely and are frequently raked up with issues on recent developments which are not widely dissimilar to those of 1962 China is a complex country To understand this rapidly progressing nation is even more difficult There are many perceptions on this country and many of them are formed on account of some international events and China's growing assertiveness It may be far-fetched to expect for a paradigm change in stance and motive which could give China an uncertain negotiating position This edited volume provides the reader an excellent blend of the historical run-up to the aberration the military developments and consequences It is also provides useful material to understand the geographical boundary issues between India and China and developing Chinese strategies both on the political and military front
