Living with the Adirondack Forest Catherine Henshaw Knott, 2018-09-05 Attitudes about land use Catherine Henshaw Knott suggests may reflect profound differences in class religion and life experience pitting urban Americans who see nature at risk against rural Americans whose lives are dominated by nature s forces She documents the thoughts and feelings of people whose lives are intimately connected to the forest including loggers trappers craftspeople and guides as well as tree farmers and maple syrup producers After describing the key players in the conflict and chronicling battles and bridge building between stake holders Knott concludes that the participation of local people in decision making is the only process that can shift an increasingly hostile cycle toward resolution *Effects of Atmospheric Pollutants on Forests, Wetlands and Agricultural Ecosystems* T.C.
