Sir James Mackenzie 1853 1925:

Sir James Mackenzie, M.D., 1853-1925 Alex Mair, 1986 Sir James Mackenzie MD Alex Mair, 1986 **A History of Electrocardiography** George Edward Burch, Nicholas P. DePasquale, 1990 *The Transformation of the Psyche in British Primary Care, 1870-1970* Rhodri Hayward, 2014-02-25

Conflicting models of selfhood have become central to debates over modern medicine Yet we still lack a clear historical account of how this psychological sensibility came to be established The Transformation of the Psyche in British Primary Care 1880 1970 will remedy this situation by demonstrating that there is nothing inevitable about the current connection between health identity and personal history It traces the changing conception of the psyche in Britain over the last two centuries and it demonstrates how these changes were rooted in transformed patterns of medical care The shifts from private medicine through to National Insurance and the National Health Service fostered different kinds of relationship between doctor and patient and different understandings of psychological distress The Transformation of the Psyche in British Primary Care 1880 1970 examines these transformations and in so doing provides new critical insights into our modern sense of identity and changing notions of health that will be of great value to anyone interested in the modern history of British medicine

Medicine and Modernism L. S. Jacyna, 2016-09-12 This is the first in depth study of the English neurologist and polymath Sir Henry Head 1861 1940 Head bridged the gap between science and the arts He was a published poet who had close links with such figures as Thomas Hardy and Siegfried Sassoon His research into the nervous system and the relationship between language and the brain broke new ground L S Jacyna argues that these advances must be contextualized within wider Modernist debates about perception and language In his time Head was best known for his

research into the human nervous system He did a series of experiments in collaboration with W H R Rivers in which cutaneous nerves were surgically severed in Head s arm and the stages by which sensation returned were chartered over several years Head s friend the philosopher Alfred North Whitehead drew out the epistemological implications of how in this new conception the nervous system furthered the knowledge of the world Listening in Medicine Michael Livingston,2005 Current medical teaching neglects the tale the patient tells or fails to tell I offer evidence suggesting such tales or narratives are central to understanding medicine Bibliography of the History of Medicine ,1979 **Cumulated Index Medicus** ,1999 Endometriosis Courtney Marsh,2021-01-14 This book provides a comprehensive look at endometriosis a disease affecting 10 percent of reproductive women It explores risk factors for endometriosis including environmental factors that are shedding light on this disease It also investigates novel methods for diagnosing and treating pain related to endometriosis which can be debilitating in some women Conditions associated with endometriosis including adenomyosis invasion of endometrial glands and stroma into the uterine muscle and infertility are reviewed in depth Finally the book examines treatment options for women with endometriosis ranging from hormonal to surgical This volume is targeted to practitioners seeing patients with endometriosis to better inform them regarding up to date diagnostic and treatment options
