most important decisions in our lives but we re never aware of it The hidden brain decides whom we fall in love with and whom we hate It tells us to vote for the white candidate and convict the dark skinned defendant to hire the thin woman but pay her less than the man doing the same job It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob In a series of compulsively readable narratives Shankar Vedantam journeys through the latest discoveries in neuroscience psychology and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society Filled with fascinating characters dramatic storytelling and cutting edge science this is an engrossing exploration of the secrets our brains keep from us and how they are revealed *Little Glory's Mission.
