Smoke Jumper Kassanna, 2021-01-09 Life is full of change. Eartha Cummings wasn't ready. To save several elderly people at a job she'd just resigned from, from a fire that trapped them in a building they'd been abandoned at. Or to meet a sexy firefighter that appeared out of nowhere who would protect her and her charges from a firestorm. All they have to do is to survive the next twenty-four hours. And then some. Destruction is ugly and beautiful. Mac Saxton was doing his job when he came across a handful of people and their nurse trapped at the convalescent home. Left there to die, there was no choice. He would keep them safe from the wildfires decimating everything around them. With Eartha, he watched a little part of the world come apart. But was it the end of the destruction or the beginning of something else?

developed ideas for using children's literature to create meaningful contexts for mathematics learning. An extensive bibliography that can be used for this purpose appears on the CD Rom. I think the text is an excellent resource for elementary and middle school methods courses. In particular, I like how the textbook handles the bigger issues such as geometric reasoning rather than just geometry. I also like the excellent foundation in educational research that the textbook provides as well as some very careful attention and consistent referencing to the NCTM standards and principles. The incorporation of classroom vignettes, teacher illustrations, and samples of student work also all add to the excellent grounding of the text in real world classroom work. Dimensions of Global Change David Cooperrider, Jane Dutton, 1999-04-29. *Organizational Dimensions of Global Change* is the first book in a new series designed to facilitate across discipline and national boundaries an emergent dialogue around the issue of global change and cooperative potential. Written by an interdisciplinary group of leading scholars, the book explores how organizational scholarship and thinking can inform an understanding of global change issues and examines the potential of cooperation as a practice, an organizing accomplishment, and as a value for understanding issues of global change. It opens up conversations and research paths and addresses basic questions such as: What do we mean by global change research? What can organizational scholarship contribute to understanding the human dimensions of global change? If we were to offer a priority agenda for research and inquiry, what questions would we be asking and what kinds of research would have a high probability of making a large contribution to knowledge as well as a timely relevance for action? Topics discussed include global women leaders, corporations as agents of global change, international networking, the development of global environmental regimes, and collaborative knowledge creation. *Organizational Dimensions of Global Change* is an essential resource for students and scholars in the fields of organization and management science, policy studies, international relations, and development studies, earth systems science, as well as the disciplines of sociology, economics, anthropology, political science, and psychology. [Smokejumper to Global Pilot](#) Lee Gossett, 2020-01-02. *Smokejumper to Global Pilot* is an excellent

description of an incredible string of events that Lee Gossett started when he was a young teenager hanging around the local airport. Learning to fly by 16, he moved down many paths which included being a smokejumper, a Kicker for Air America in Southeast Asia, a crop duster in New Zealand, and a pilot for Air America, Continental Air Services, and eventually for the proprietary replacement for Air America. From can-do operations and out-of-the-box thinking to the development and adaptation of innovative new technology, this book will appeal to a wide range of readers. Simply put, this is a guidebook to creating an adventurous life by never letting an opportunity pass you by. **Fire Control Notes** United States Forest Service, 1957. An international quarterly periodical devoted to forest fire management.
