GWR Locomotives: The Manor Class Allen Jackson,2019-10-15 A fascinating and lavishly illustrated guide to this iconic Great Western Railway locomotive Manor Class **The GWR Handbook** David Wragg,2017-08-01 For many the GWR was synonymous with holidays by the sea in the West Country but it was built to serve as a fast railway line to London especially for the merchants and financiers of Bristol Its operations stretched as far as Merseyside it provided most services in Wales and it was the main line to Cardiff Bristol Cornwall and Birmingham This book a classic first published in 2006 reveals the equipment stations network shipping and air services bus operations including Western National and overall reach and history of the GWR Forming part of a series along with The LMS Handbook The LNER Handbook and The Southern Railway Handbook this new edition provides an authoritative and highly detailed reference of information about the GWR [Southern Railway, Lord Nelson Class 4-6-0s](#) Tim Hillier-Graves,2020-09-19 The Lord Nelson Class has come to be viewed as an also ran amongst express locomotives and is largely overlooked for that reason It had the misfortune to be sandwiched on Southern metals between the classic and much revered King Arthurs and Schools and by Bullied s controversial Pacifics In such company any design might suffer by comparison And yet when first appearing they attracted plaudits from railway professionals including the footplate crew and the public alike But with only 16 being built their impact was muted and any faults in their design were magnified beyond their actual impact In truth they deserved far better than this and were in fact sturdy reliable performers that served the company well on the heavy boat trains for which they were designed and across their other passenger services for 30 years and more in peace and war Much has been written about these locomotives but no story is ever complete with new information and photographs emerging to deepen our understanding of them This book provides an in depth view that re examines these impressive engines using new material eye witness accounts contemporary assessments and more than 200 photographs and drawings [The Locomotive News and Railway Contractor](#) ,1919 **The GWR Bristol to Bath Line** Colin Maggs,2012-05-15 A new edition of a classic history of the railway line between Bristol and Bath illustrated with over 200 pictures **Steam Around Basingstoke and Salisbury** Charlie Verrall,2017-04-15 Charlie Verrall explores the fascinating history of steam around Basingstoke Eastleigh

8in wheeled 4 6 0 for mixed traffic duties in 1901 and it was seriously considered in 1905 but it took until 1936 before his successor Charles Collett realized the plan by persuading the GWR Board to replace many of the 43XX moguls with modern standard mixed traffic engines that bore a remarkable likeness to the Churchward proposal David Maidment has written another in his series of Locomotive Portfolios for Pen enthusiasts for whom these capable machines are favorites will definitely want this volume on the bookshelf Railway Modeller
