The Challenges of Intra-Party Democracy William P.

Cross,Richard S. Katz,2013-02-28 The Challenges of Intra Party Democracy provides a comprehensive examination of both the concept and the practice of intra party democracy IPD Acknowledging that IPD is now widely viewed among both democratic practitioners and scholars as a normative good this volume suggests that there is no single or uniformly preferred form of IPD Rather each party s version of IPD results from a series of choices they make relating to the organization and division of power internally These decisions reflect many variables including a party s democratic ethos its electoral context state regulation and whether or not it is in government Individual chapters examine the relationship between party models and IPD the decline in party membership and activism the role of the state in regulating party democracy issues relating to gender and party organization norms of candidate and leadership recruitment and selection party policy development and party finance The analysis considers the principal issues that parties and the state must consider relating to IPD in each area of party activity the range of options open to them current trends in terms of paths chosen what these choices tell us about parties and most importantly what the implications of these choices are In doing so we offer a common language and set of questions relating to IPD that enhance the ability for consistent evaluation of the state of internal party democracy Through thorough analysis of associated costs and benefits we also provide a framework to assist with considerations of IPD reforms particularly in terms of their scope the range of options available and their implications Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The Comparative Politics series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin and Kenneth Carty Professor of Political Science University of British Columbia *The British Study of Politics in the Twentieth Century* Jack Hayward,Brian Barry,Archie Brown,2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations *The Longman Companion to the Labour Party, 1900-1998* Harry Harmer,2014-09-25 A timely reference guide to the Labour Party which brings together the essential facts and figures about the Party since its foundation through to the New Labour of the 1990 s It is the essential reference book for anyone wanting reliable information on the Labour Party *The Struggle for Labour's Soul* Raymond Plant,Matt Beech,Kevin Hickson,2004 Contributors ranging from Chancellor Gordon Brown to the Guardian newspaper s Polly Toybee discuss the Labour Party s political philosophy and address key topics like globalization constitutional reform equality and the third way *Contemporary Thought on Nineteenth Century Socialism* Peter Lamb,2020-12-15 The third

Labour's Renewal? Gerald R. Taylor, 2016-07-27 This is an important critical assessment of Labour's periods of renewal and modernisation Beginning with an indepth analysis of the Policy Review of 1987-92 the author then considers how the lessons of this period influenced the Commission on Social Justice instigated by John Smith and Tony Blair's reform of Clause IV These events are considered as attempts to resolve traditional problems facing the Labour Party the abiding legacy and importance of these fundamental problems is assessed

Respectable Radicals David Howell, 2017-03-02 Railway workers were a uniformed and respectable section of the Victorian and Edwardian working class They built their trade unions in the face of employer hostility and their organisations played a crucial role in the construction of effective labour politics Local political organisations owed much to the patience and creativity of railway workers not least in small towns and country districts Respectable Radicals uses rich archival sources to analyse this history through a series of case studies It focuses among other topics on disasters strikes the modernisation policies of companies inter union rivalries and the promises and frustrations of labour politics A dominant theme is the complex relationship between changing experiences of work shifting trade union strategies and political identities The result is a new perspective on a significant sector of trade unionism and on the character of labour politics from the 1890s to the 1950s
