Woodford,1991 **Charting the Inland Seas** Arthur M. Woodford,1994 Throughout the history of the Great Lakes many organizations have played important roles in the growth and development of the water system *Charting the Inland Seas* highlights the work done by the U S Lake Survey one of the most notable yet least known organizations in the history of the Great Lakes With the first great influx of settlers into the Great Lakes region came the need for extensive surveys and accurate navigational charts In the 1830s shipowners and masters pressed the federal government to begin a thorough survey of the Great Lakes in order to make available detailed maps and charts of the various routes by which the lakes could safely be sailed In 1841 Congress appropriated 15 000 for the Corps of Topographical Engineers to begin a survey of the northern and northwestern lakes thus marking the formation of the United States Lake Survey Arthur M Woodford documents how the role and responsibility of the Lake Survey grew as conditions on the Great Lakes changed over the next 135 years Great Lakes ships evolved into larger vessels with greater drafts creating the need for new and more exact surveys and charts In order to more accurately predict the water levels of the Great Lakes special forecasting techniques evolved When erosion of beaches threatened to destroy valuable lakefront property extensive studies by the Lake Survey determined the causes And as the number of recreational crafts increased a program began for the design and publication of large scale book charts for boaters to use In addition the U S Lake Survey was one of the military s major suppliers of maps and charts during the two world wars and the Korean conflict In 1970 the federal government established the National Oceanic and Atmospheric Administration NOAA as part of

the Department of Commerce and brought together in a single agency the major federal programs dealing with the seas and the atmosphere and the U S Lake Survey was reorganized In 1976 the U S Lake Survey was completely phased out concluding an important chapter in the history of the Great Lakes **An Environmental History of Canada** Laurel Sefton MacDowell, 2012-07-31 Traces how Canada's colonial and national development contributed to modern environmental problems such as urban sprawl the collapse of fisheries and climate change Includes over 200 photographs maps figures and sidebar discussions on key figures concepts and cases Offers concise definitions of environmental concepts Ties Canadian history to issues relevant to contemporary society Introduces students to a new dynamic approach to the past Throughout history most people have associated northern North America with wilderness with abundant fish and game snow capped mountains and endless forest and prairie Canada's contemporary picture gallery however contains more disturbing images deforested mountains empty fisheries and melting ice caps Adopting both a chronological and thematic approach Laurel MacDowell examines human interactions with the land and the origins of our current environmental crisis from first peoples to the Kyoto Protocol This richly illustrated exploration of the past from an environmental perspective will change the way Canadians and others around the world think about and look at Canada
