The Road to Science Fiction: From here to forever James E. Gunn, 2003 Now in Paperback The Road to Science Fiction is a six volume anthology that covers the development of this genre from its earliest prototypes to the current day Created originally to provide anthologies for use in classrooms in the late 1970s these volumes became mass market sellers Between an ancient Roman s trip to the moon and the fantastic tales of H G Wells lies a journey through time and space and an awesome evolution in scientific thinking From Gilgamesh s search for immortality to Edgar Allan Poe s balloon trip in the year 2848 these and other key works are gathered together for the first time in one anthology complete with revealing commentary on the authors their eras and the role each played in establishing what we today recognize as science fiction Volume 4 From Here to Forever covers the period from 1950 1992 illustrating how science fiction can be as concerned with language and character as much as traditional fiction and anything

in the mainstream Includes stories by Jorge Luis Borges Richard Matheson C M Kornbluth Jack Vance and Pamela Zoline

The Seven Beauties of Science Fiction Istvan Csicsery-Ronay, 2012-10-01 This major critical work from one of the preeminent voices in science fiction scholarship reframes the genre as a way of understanding today's world As the application of technoscience increasingly transforms every aspect of life science fiction has become an essential mode of imagining the horizons of possibility Though the broad scope of science fiction may vary in artistic quality and sophistication it shares a desire to imagine a collective future for the human species and the world A strikingly high proportion of today's films commercial art popular music video games and non genre fiction are what Csicsery Ronay calls science fictional stimulating science fictional habits of mind We no longer treat science fiction as merely a genre engine producing formulaic effects but as a mode of awareness which frames experiences as if they were aspects of science fiction *The Seven Beauties of Science Fiction* describes science fiction as a constellation of seven diverse cognitive attractions that are particularly formative of science fictionality These are the seven beauties of the title fictive neology fictive novums future history imaginary science the science fictional sublime the science fictional grotesque and the Technologiade or the epic of technoscience's development into a global regime

The Cambridge History of Science Fiction Gerry Canavan, Eric Carl Link, 2019-01-03 The first science fiction course in the American academy was held in the early 1950s In the sixty years since science fiction has become a recognized and established literary genre with a significant and growing body of scholarship *The Cambridge History of Science Fiction* is a landmark volume as the first authoritative history of the genre Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past Science fiction as a literary genre is the central focus of the volume but fundamental to its story is its non literary cultural manifestations and influence Coverage thus includes transmedia manifestations as an integral part of the genre's history including not only short stories and novels but also film art architecture music comics and interactive media
