The Killing Of Bonnie Garland A Question Of Justice:

The Killing of Bonnie Garland Willard Gaylin, 1995-09-01 A powerful and passionate indictment of the use of psychiatric testimony in criminal cases The Cleveland Plain Dealer A year after Richard Herrin confessed to killing his girlfriend Bonnie Garland he was found not guilty of murder His crime he pleaded was committed under extreme emotional disturbance excusing him from maximum responsibility He was convicted on the reduced charge of manslaughter In this incisive examination of the murder the trial and its aftermath a distinguished psychiatrist addresses the issue of the insanity defense He shows how psychiatric testimony can distort court proceedings and brilliantly analyzes the conflict between the individual rights of the accused and society's right to justice

The Culture of Crime Boaz Ganor, 2018-01-18 There is no journalistic work more deserving of the designation story than news of crime From antiquity the culture of crime has been about the human condition and whether information comes from Homer Hollywood or the city desk it is a bottom about the human capacity for cruelty and suffering about desperation and fear about sex race and public morals Facts are important to the telling of a crime story but ultimately less so than the often apocryphal narratives we derive from them The Culture of Crime is hence about the most common and least studied staple of news Its prominence dates at least to the 1830s when the urban penny press employed violence sex and scandal to build dizzying high levels of circulation and begin the modern age of mass media In its coverage of crime in particular the popular press represented a new kind of journalism if not a new definition of news that made available for public consumption whole areas of social and private life that the mercantile elite and political press earlier ignored This legacy has continued unabated for 150 years The book explores new wrinkles in the study of crime and as a mass cultural activity from exploring the private lives of public officials to dangers posed by constraints to a free press The volume is prepared with the rigor of a scholarly brief but also the excitement of actual crime stories as such Throughout the reader is reminded that crime stories are both news and drama and to ignore either is to diminish the other The work delves deeply into current problems without either sentimental or trivial pursuits It will be a volume of great interest to people in communications research the social sciences criminologists and not least the broad public which must endure the punishment of crime and the thrill of the crime story alike

PSYCHIATRY AND CRIMINAL CULPABILITY How do we distinguish between sin and sickness Few cases in recent memory so well typify the current confusion over this question as that of Jeffrey Dahmer The confessed killer of fifteen young men Dahmer had sex with and cannibalized his victims bodies Yet because he was not found to be mentally ill the threshold requirement in tests of legal insanity he was convicted and sentenced to 936 years imprisonment How is it that such a severely disturbed person as Dahmer is adjudged sane and therefore culpable while Twinkiedefense killer Dan White and would be presidential assassin John Hinckley Jr are deemed not guilty by reason of insanity What are the origins of tests for criminal responsibility and how is mental illness defined under them Can causal links be shown to exist between specific crimes and disorders Psychiatry and Criminal Culpability explores in depth these questions and many others at the heart of one of the most controversial issues in our criminal justice system today Throughout Dr Ralph Slovenko an acknowledged expert whose professional experience straddles both the worlds of psychiatry and the law brings a wealth of scholarship and direct experience to bear on the subject Citing numerous landmark cases and historical formulations of criminal responsibility dating back to biblical times he traces the evolution of current legal and psychiatric notions of culpability and the relationship between culpability and insanity Writing for both a mental health and legal audience Dr Slovenko clearly and

eloquently addresses a wide range of important topical issues He explains the distinctions between the defenses of not guilty by reason of insanity guilty but mentally ill and diminished capacity He identifies the types of mental illness that currently qualify under the test of criminal responsibility including disorders that psychiatrists do not regard as psychotic but which nevertheless many experts assert negate responsibility He explores the role of the mental health professional as an expert character witness in cases where it is uncertain whether the accused committed the crime in question And much more Fascinating thought provoking and enlightening Psychiatry and Criminal Culpability helps guide mental health and legal professionals through the moral and technical complexities of one of the knottiest issues of our day Psychiatry in Law / Law in Psychiatry, Second Edition Ralph Slovenko, 2009-03-03 Psychiatry in Law Law in Psychiatry 2nd Edition is a sweeping up to date examination of the infiltration of psychiatry into law and the growing intervention of law into psychiatry Unmatched in breadth and coverage and thoroughly updated from the first edition this comprehensive text and reference is an essential resource for psychiatry residents law students and practitioners alike *Encyclopedia of Violence, Peace, and Conflict*, 2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world *Hatred* Willard Gaylin, 2009-04-27 We all get angry at the built in frustrations and humiliations of everyday life But few of us ever experience the intense and perverse hatred that inspires acts of malignant violence such as suicide bombings or ethnic massacres In *Hatred* Dr Willard Gaylin one of America's most

respected psychiatrists describes how raw personal passions are transformed into acts of violence and cultures of hatred. Such hatred goes beyond mere emotion. Hatred, Gaylin explains, is a psychological disorder, a form of quasi-delusional thinking. It requires forming a passionate attachment, an obsessive involvement with the scapegoat population. It is designed to allow the angry and frustrated individual to disavow responsibility for his own failures and misery by directing it towards a convenient victim. Gaylin dissects the mechanisms by which cynical political and religious leaders manipulate frustrated and deprived people, leading to the acts of mass terror that threaten us all. Step by step, he leads us into an understanding of the psychological pathway to acts of terrorism, an understanding that is essential to survival in a world of hatred. Hatred is a masterwork in Willard Gaylin's life-long study of human emotions. Writing for the educated lay audience in the eloquent, accessible language of his bestsellers *Feelings* and *Rediscovering Love*, he takes us to the very roots of hatred.

Political Trials, 1999. Political trials take issues of responsibility, conscience, representation, and legitimacy, which are tied in tight political and legal knots, and force us to face questions about our public identity, our standards for public policy, and our sense of history. Ron Christenson explores how political trials, especially those within the rule of law, engage society's conflicting values and loyalties. He examines numerous political trials throughout history, bringing into question basic foundations of law, politics, and society. Christenson classifies political trials according to the issues they generate in the political sphere: partisan trials are spurious legal proceedings, but politically expedient trials of corruption and insanity raise questions of public and personal responsibility; trials of dissenters involve problems of conscience; trials of nationalists highlight the nature of representation and the relationship of the part to the whole; and trials of regimes engage the most fundamental concept of both law and politics, legitimacy. *Political Trials* brings these considerations to bear on some of the best-known cases in history, including the Gunpowder Plot, the Spanish Inquisition, the Dreyfus affair, the Nuremberg trials, trials of dissenters such as Socrates, Thomas More, Roger Williams, and the Berrigan brothers, and trials of nationalists such as Joan of Arc, Gandhi, Knut Hamsun, and the Irish republicans. Since the first edition appeared, a number of notable political trials have raised critical issues for society. Shocking public exposures about the Guildford 4 and Maguire 7 trials shook the British criminal justice establishment, while in the United States, trials concerning the beating of Rodney King led up to the O.J. Simpson spectacle and a host of parallel questions. The trials of right-wing terrorists such as Paul Hill, found guilty of murdering an abortion doctor, and Timothy McVeigh, convicted of the Oklahoma City federal building bombing, parallel the case of left-wing dissenter Karl Armstrong in the 1970s. Finally, the South African Truth and Reconciliation Committee provides a test case of whether a nation can not only remember but grant amnesty and achieve true reconciliation. In examining the dilemmas involved in these trials, Christenson shows how they make a positive contribution to an open and democratic society. *Political Trials* will be an important addition to the libraries of historians, legal scholars, and political scientists.

Hunting Humans
Elliott Leyton, 2011-10-05. In this classic study, Elliott Leyton challenges the conventional idea of serial murderers as deranged.

madmen He explores the twisted but comprehensible motives of a half dozen notorious killers Edmund Emil Kemper Theodore Robert Bundy Albert DeSalvo The Boston Strangler David Richard Berkowitz Son of Sam Mark James Robert Essex and Charles Starkweather In the process of describing their crimes Leyton exposes the cold rationality that underlies their apparent pointlessness The result is startling a revelatory text on a deeply troubling topic **Serial Killers** Mark Seltzer,2013-09-13 In this provocative cultural study the serial killer emerges as a central figure in what Mark Seltzer calls America s wound culture From the traumas displayed by talk show guests and political candidates to the violent entertainment of Crash or The Alienist to the latest terrible report of mass murder we are surrounded by the accident from which we cannot avert our eyes Bringing depth and shadow to our collective portrait of what a serial killer must be Mark Seltzer draws upon popular sources scholarly analyses and the language of psychoanalysis to explore the genesis of this uniquely modern phenomenon Revealed is a fascination with machines and technological reproduction with the singular and the mass with definitions of self other and intimacy What emerges is a disturbing picture of how contemporary culture is haunted by technology and the instability of identity
