The Last Journals Of David Livingstone Volume 2 Illustrated Edition:

Studies of the Greek Poets Volume 2 (of 2) John Addington Symonds, 2014-11-12 Example in this ebook CHAPTER XIV GREEK TRAGEDY AND EURIPIDES The chapters on schylus and Sophocles have already introduced the reader to some of the principal questions regarding Attic tragedy in general Yet the opening of a new volume justifies the resumption of this subject from the beginning while the peculiar position of Euripides in relation to his two great predecessors suggests the systematic discussion of the religious ideas which underlay this supreme form of national art as well as of the sthetical rules which it obeyed in Greece Critics who are contented with referring the origin of the Greek drama to the mimetic instinct inherent in all humanity are apt to neglect those circumstances which render it an almost unique phenomenon in literature If the mimetic instinct were all that is requisite for the origination of a national drama then we might expect to find that every race at a certain period of its development produced both tragedy and comedy This however is far from being the case A certain rude mimesis such as the acting of descriptive dances or the jesting of buffoons and mummers is indeed common in all ages and nations But there are only two races which can be said to have produced the drama as a fine art originally and independently of foreign influences These are the Greeks and the Hindoos With reference to the latter it is even questionable whether they would have composed plays so perfect as their famous Sakountala without contact with Hellenic civilization All the products of the modern drama whether tragic or comic must be regarded as the direct progeny of the Greek stage The habit of play acting continued from Athens to Alexandria and from Rome to Byzantium never wholly expired The Christus Patiens attributed to Gregory of Nazianzus was an adaptation of the art of Euripides to Christian story and the representation of Mysteries during the Middle Ages kept alive the dramatic tradition until the discovery of classic literature and the revival of taste in modern Europe led to the great works of the English Spanish French and subsequently of the German theatre Something more than the mere instinct of imitation therefore caused the Greeks to develop their drama Like sculpture like the epic the drama was one of the artistic forms through which the genius of the Greek race expressed itself by which to use the language of philosophical mysticism it fulfilled its destiny as a prime agent in the manifestation of the World Spirit In their realization of that perfect work of art for which they seem to have been specially ordained the drama was no less requisite than sculpture and architecture than the epic the ode and the idyl Two conditions both of which the Greeks enjoyed in full perfection at the moment of their first dramatic energy seem to be requisite for the production of a great and thoroughly national drama These are first an era of intense activity or a period succeeding immediately to one of excitement by which the nation has been nobly agitated secondly a public worthy of the dramatist spurring him on by its enthusiasm and intelligence to the creation of high works of art A glance at the history of the drama in modern times will prove how necessary these conditions are To be continue in this ebook David Livingstone, Africa's Greatest Explorer Paul Bayly, 2017-05-17 In 1841 a twenty eight year old Scottish missionary David Livingstone began the first of his exploratory

treks into the African veldt During the course of his lifetime he covered over 29 000 miles uncovering what lay beyond rivers and mountain ranges where no other white man had ever been Livingstone was the first European to make a trans African passage from modern day Angola to Mozambique and he discovered and named numerous lakes rivers and mountains His explorations are still considered one of the toughest series of expeditions ever undertaken He faced an endless series of life threatening situations often at the hands of avaricious African chiefs cheated by slavers traders and attacked by wild animals He was mauled by a lion suffered thirst and starvation and was constantly affected by dysentery bleeding from hemorrhoids malaria and pneumonia This biography covers his life but also examines his relationship with his wife and children who were the main casualties of his endless explorations in Africa It also looks Livingstone s legacy through to the modern day Livingstone was an immensely curious person and he made a habit of making meticulous observations of the flora and fauna of the African countryside that he passed through His legacy includes numerous maps and geographical and botanical observations and samples He was also a most powerful and effective proponent for the abolition of slavery and his message of yesterday is still valid today in a continent stricken with drought desertification and debt for he argued that the African culture should be appreciated for its richness and diversity But like all great men he had great faults Livingstone was unforgiving of those that he perceived had wronged him he was intolerant of those who could not match his amazing physical powers and finally and he had no compunction about distorting the truth particularly about other people in order to magnify his already significant achievements Illustrations 40 colour illustrations **The Dial** ,1881 **Occasional Lists** Birmingham Public Libraries,1901 **Farthest North; Being the Record of a Voyage of Exploration of the Ship "Fram" 1893-96** Fridtjof Nansen,1898 **Farthest North** Fridtjof Nansen,1897 The Academy ,1874 Publishers' circular and booksellers' record ,1880 Farthest North Fridtjof Nansen,2018-09-21 Reproduction of the original Farthest North by Fridtjof Nansen *John Halifax, gentleman* Augustus Hoppin,1859
