into rivers to save their dogs Victims often die within minutes of sinking beneath the surface A quarter of those who reach hospital alive will also die while others survive with severe permanent brain damage This means that it is vitally important for parents grandparents teachers lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place **Abandoned Shipwreck Act of 1987; preserving wetlands, historic, and prehistoric sites in the St. Johns River Valley, FL; and highway relocation affecting the Chickamauga and Chattanooga National Military Park, GA** United States.
