Comedy and the Woman Writer Judy Little, 1983-01-01 Recent critics have affirmed the difficulty perhaps the impossibility of defining modern comedy at the same time some feminist scholars are seeking to understand the special comedy often present in literature written by women *Comedy and the Woman Writer* responds to both these concerns of recent criticism feminist literary theory and theories of comedy Judy Little develops a critical apparatus for identifying feminist comedy in recent fiction especially the radical political and psychological implications of this comedy and then applies and tests her theory by examining the novels of Virginia Woolf and Muriel Spark Despite recent scholarly attention to Woolf the profound comedy of her work has been largely overlooked and the comic fiction of Spark has seldom had the responsible and attentive criticism that it deserves The introductory chapter draws upon anthropology and sociology as well as literary criticism and the fiction of feminist writers such as Woolf Doris Lessing and Monique Wittig to define a modern feminist comedy Four central chapters then explore the implications of this comedy in the novels of Woolf and Spark Little distinguishes between on the one hand several varieties of traditional comedy and satire and on the other the festive or liminal comedy to which feminist comedy belongs Both Woolf and Spark mock centuries old mythic patterns and behaviors deriving from basic social norms as well as the values emerging from these norms It is one thing the author points out to find manners amusing to scourge vices or to mock the follies of lovers it is a much more drastic act of the imagination to mock the very norms against which comedy has traditionally judged vices follies and eccentricities While the comedy of Woolf and Spark has some precedent in festive or liminal celebrations during which even basic values and behavior are abandoned feminist comedy displays its radical nature by implying that there is no resolution to the inverted overturned world the world in revolutionary transition The final chapter considers briefly in the light of the critical model of feminist comedy the work of several other twentieth century writers including Jean Rhys Penelope Moritmer and Margaret Drabble The presence of radical comedy in the fiction of these and other writers suggests the need for continuing attention to the theory of feminist comedy proposed in this study

[Ian Watt](#) Marina MacKay, 2018-11-15 Before his masterpiece *The Rise of the Novel* made him one of the most influential post war British literary critics Ian Watt was a soldier a prisoner of war of the Japanese and a forced labourer on the notorious Burma Thailand Railway Both an intellectual biography and an intellectual history of the mid century this book reconstructs Watt's wartime world these were harrowing years of mass death deprivation and terror but also ones in which communities and institutions were improvised under the starkest of emergency

Acts of Faith and Imagination Brent Little, Mark Bosco, SJ, 2023-08-04 Acts of Faith and Imagination wagers that fiction written by Catholic authors assists readers to reflect critically on the question what is faith To speak of a person's faith life is to speak of change and development As a narrative form literature can illustrate the dynamics of faith which remains in flux over the course of one's life Because human beings must possess faith in something whether religious or not it inevitably has a narrative structure faith ebbs and flows flourishes and decays develops and stagnates Through an exploration of more than a dozen Catholic authors novels and short stories Brent Little argues that Catholic fiction encourages the reader to reflect upon their faith holistically that is the way faith informs one's affections and how a person conceives and interacts with the world as embodied beings Amidst the diverse stories of modern and contemporary fiction a consistent pattern emerges Catholic fiction portrays faith at its most fundamental often unconscious level as an act of the imagination Faith is the way one imagines themselves others and creation A person's primary faith conditions how they live in the world regardless of the level of conscious reflection and regardless of whether this is a religious faith Acts of Faith and Imagination investigates the creative depth and vitality of the Catholic literary imagination by bringing late modern Catholic authors into dialogue with more contemporary ones Readers will then consider well known works such as those by Graham Greene Flannery O'Connor and Muriel Spark in the fresh light of contemporary stories by Toni Morrison Alice McDermott Uwem Akpan and several others
