

THE SPIRIT OF THE SOIL

Agriculture and Environmental Ethics

Paul B. Thompson

SECOND EDITION

Spirit Of The Soil Agriculture And Environmental Ethics

Paul B. Thompson

Spirit Of The Soil Agriculture And Environmental Ethics:

The Spirit of the Soil Paul B. Thompson, 2017-05-25 In this second edition of *The Spirit of the Soil* Agriculture and Environmental Ethics Paul B Thompson reviews four worldviews that shape competing visions for agriculture Productionists have sought increasing yields to make two seeds grow where only one grew before while traditional visions of good farming have stressed stewardship These traditional visions have been challenged by two more worldviews a call for a total cost accounting for farming and an advocacy for a holistic perspective Thompson argues that an environmentally defensible systems approach must draw upon all four worldviews recognizing their flaws and synthesizing their strengths in a new vision of sustainable agriculture This classic 1995 study has been thoroughly revised and significantly expanded in its second edition with up to date examples of agriculture s impact on the environment These include extensive discussions of new pesticides and the effects of animal agriculture on climate and other areas of the environment In addition a new final chapter discusses sustainability which has become a dominant idea within environmental studies and agrarian political philosophy

The Spirit of the Soil Paul B. Thompson, 1995 He compares four world views productionism stewardship economics and holism which frame these issues and the potential response to them according to different philosophical priorities All four are found to have their inadequacies

The Agrarian Vision Paul B. Thompson, 2010-07-07 As industry and technology proliferate in modern society sustainability has jumped to the forefront of contemporary political and environmental discussions The balance between progress and the earth s ability to provide for its inhabitants grows increasingly precarious as we attempt to achieve sustainable development In *The Agrarian Vision* Sustainability and Environmental Ethics Paul B Thompson articulates a new agrarian philosophy emphasizing the vital role of agrarianism in modern agricultural practices Thompson a highly regarded voice in environmental philosophy unites concepts of agrarian philosophy political theory and environmental ethics to illustrate the importance of creating and maintaining environmentally conscious communities Thompson describes the evolution of agrarian values in America following the path blazed by Thomas Jefferson John Steinbeck and Wendell Berry Providing a pragmatic approach to ecological responsibility and commitment *The Agrarian Vision* is a significant compelling argument for the practice of a reconfigured and expanded agrarianism in our efforts to support modern industrialized culture while also preserving the natural world

Agriculture's Ethical Horizon Robert L Zimdahl, 2012-01-30 The second edition of *Agriculture s Ethical Horizon* is a carefully considered application of philosophical concepts such as utilitarianism and positivism to the practice of agricultural science Author Robert Zimdahl argues for an approach to agriculture guided by foundational values and addresses the questions What are the goals of agricultural and weed science What should their goals be How do and how should the practitioners of agriculture address complex ethical questions This book engages students researchers and professionals across disciplines including horticulture soil and plant science entomology and more all without requiring a background in philosophy It examines topics such as scientific truth and

myth moral confidence in agriculture the relevance of ethics to sustainability and biotechnology New to this edition is a chapter examining the raising housing and slaughter of animals for human food and a chapter on alternative and organic agricultural systems Easily understood by non philosophers Chapter sidebars highlight important concepts and can be used to engage students in further discussion Companion website includes further teaching aids and a discussion board **Paul**

B. Thompson's Philosophy of Agriculture Samantha Noll,Zachary Piso,2024-01-01 This book explores the philosophical thought and praxis of Paul B Thompson who planted some of the first seeds of philosophy of agriculture and whose work inspires interdisciplinary scholarship in food ethics biotechnology and environmental philosophy Landmark texts such as The Spirit of the Soil The Agrarian Vision and From Field to Fork revealed the fertility of food systems for inspiring reflection on our relationships to technology the land and one another Rooted in philosophical traditions ranging from pragmatism to post phenomenology Thompson s work nourishes projects in ethics epistemology philosophy of science and social and political theory not only in academic philosophy departments but also in the social and natural sciences This volume collects this diversity of thought in a tour of the many fields of food systems from theorizing the sustainability of agroecological systems to appreciating the quotidian practice of agrarian communities to anticipating the impacts of emerging biotechnology and to savoring the roles that food plays in forming our identities Composed by an international crop of scholars working on the future of food ethics the volume is a vital contribution to scholars and practitioners thinking through our relationships to the food systems that sustain us **Reconstructing biotechnologies** Guido Ruivenkamp,Shuji Hisano,Joost

Jongerden,2023-08-28 The main subject of this publication is the co creation of society and biotechnology The authors do not treat society and biotechnology as separate domains instead they consider technologies as socially constructed The main focus of this publication is on agro biotechnologies and the contributors present perspectives for reconstruction both from and in the North and the South Reconstructing biotechnologies offers a range of critical social analyses confronting the actuality of biotechnology with the potentialities of its social reconstruction In doing that the book develops and merges literature from four different disciplines namely i critical theory and its analyses of technology and power ii political economy critically assessing the interrelationship between economy politics and technology iii social constructivism which holds that technology is the product of agency and knowledge systems and iv the analysis of rural society and agrarian technologies in rural sociology Reconstructing biotechnologies introduces exciting approaches and examples into the social reshaping of biotechnologies It brings together critical examinations of contemporary biotechnology development and puts forward possible alternatives written by critical scholars The contributions in this publication are for students and scholars in a wide range of disciplines such as social and political sciences science and technology studies and development studies The editors of the book are associated with the Social Sciences Department of Wageningen University in the Netherlands and the Graduate School of Economics of Kyoto University in Japan They have published extensively on social and political theory and

biotechnology **A Sustainable Philosophy—The Work of Bryan Norton** Sahotra Sarkar, Ben A. Minteer, 2018-07-16

This book provides a richly interdisciplinary assessment of the thought and work of Bryan Norton one of most innovative and influential environmental philosophers of the past thirty years In landmark works such as *Toward Unity Among Environmentalists* and *Sustainability A Philosophy of Adaptive Ecosystem Management* Norton charted a new and highly productive course for an applied environmental philosophy one fully engaged with the natural and social sciences as well as the management professions *A Sustainable Philosophy* gathers together a distinguished group of scholars and professionals from a wide array of fields including environmental philosophy natural resource management environmental economics law and public policy to engage Norton's work and its legacy for our shared environmental future A study in the power of intellectual legacy and the real world influence of philosophy the book will be of great interest scholars and students in environmental philosophy public policy and management and environmental and sustainability studies By considering the value and impact of Norton's body of work it will also chart a course for the next generation of pragmatic environmental philosophers and sustainability scholars grappling with questions of environmental value knowledge and practice in a rapidly changing world

Food and Agricultural Biotechnology in Ethical Perspective Paul B. Thompson, 2020-11-09 This 3rd edition of *Food and Agricultural Biotechnology in Ethical Perspective* updates Thompson's analysis to reflect the next generation of biotechnology including synthetic biology gene editing and gene drives The first two editions of this book published as *Food Biotechnology in Ethical Perspective* in 1997 and 2007 were the first comprehensive philosophical studies of genetic engineering applied to food systems The book is structured with chapter length treatments of risk in four categories food safety to animals to the environment and socio economic risks These chapters are preceded by two chapters providing orientation to the uses of gene technology in food and agriculture and to the goals methods and background assumptions of technological ethics There is also a chapter covering all four types of risk as applied to the first US technology recombinant bovine somatotropin The last four chapters take up 1 intellectual property debates 2 religious metaphysical and intrinsic objections to biotechnology 3 issues in risk and trust and 4 a review of ethical issues in synthetic biology gene editing and gene drives the three key technologies that have emerged since the book was last revised

Environmental Futures Ben Fairweather, Sue Elworthy, Matt Stroh, Piers H.G. Stephens, 1999-04-12 The book comprises thirteen papers on environmental issues with particular reference to future developments for example new technologies paths in social and political theory methodologies It is divided into three sections moving from social constructions of the environment in the first section to questions of green political theory and practice in the second and concluding with issues of environmental risk and future technologies The work is interdisciplinary with contributors ranging from philosophers to human geographers

Sustainable Agriculture Mark E. Graham, 2009-07-01 This book is an invitation to all Christians to begin constructing a food ethics to the academic Christian ethicist it presents an opportunity to join a discussion on a topic

relevant in so many ways to the life of every American to the Christian for whom the spark of the divine is detectable in the everyday life it is a chance to begin making ethical sense out of something done every day for the entirety of one's natural life participating in agriculture from the Introduction In Sustainable Agriculture Mark Graham joins the vibrant substantive discussion about the moral issues in American agriculture by revealing what is going on in current agricultural practices and analyzing them in light of morality and sustainability Graham's constructive proposal for change is based on a moral vision that identifies a group of core values around which our agricultural system should be developed including a consistent safe food supply b vital sustainable communities and c personal and environmental health
