spirits It also goes into the secrets of Eastern internal alchemy and how the books of Western alchemy often made secretive references to sexual magick You will also learn how to create a physical representation of the spirit you are going to use as a partner The second part of the book includes the practices and techniques which the author found to be effective from other sources or developed himself This includes techniques of diet exercise breathwork banishings purifications and finally an invocation ritual to summon the spirit who is going to be your lover Then you will learn the previously hidden secrets of having sex with a spirit lover You ll learn how to prepare and recognize the signs that this is an actual occurrence and not simply a fantasy And then when you have accomplished your ritualized mating you will learn how to collect and use the resulting highly charged fluids for magical purposes Everything we are everything we have is a gift from the Divine Doesn t it make sense that we use all of our abilities to honor the source from which they came That means we can even make use of our sensual natures to honor the Gods If you want to follow a system based on western traditions this book can be your guide
